The Materials of Scientology

by L. Ron Hubbard

THERE IS A POSSIBILITY THAT SOME SCIENTOLOGISTS HAVE NOT REALIZED THE EXTENT OF TECHNICAL MATERIALS WHICH EXIST IN DLANETICS AND SCIENTOLOGY ON THE SUBJECT OF THE SPIRIT, MIND AND LIFE.

For instance, there are about 25,000,000 words on tape in archives which provide the consecutive path of discovery.

When placed chronologically with books, HCOBs, HCO PLs and other issues this gives a nearly complete record of all discoveries and applications in these subjects.

The total numbers of words or even the number of tapes and issues to date have not been reliably calculated.

From time to time various efforts have been made to transcribe and issue all the materials. The task should be done, especially before the decay of magnetic tape, some of which was of poor quality, eradicates the material. A more strenuous and reliable effort should be made to place these archives into a more durable form than magnetic tape.

A chronological study of materials is necessary for the complete training of a truly top-grade expert in these lines. He can see how the subject progressed and so is able to see which are the highest levels of development. Not the least advantage in this is the defining of words and terms for each, when originally used, was defined, in most cases, with considerable exactitude, and one is not left with any misunderstandings.

The subject of Scientology is to some degree developed in reverse order. The task was to undercut the current level of Man and this was the general target. Therefore one finds the higher levels publicly spoken of most frequently in the earlier books and tapes (between 51 and 55). In seeking full application to others and attainment

for them of their potentials, it was necessary to codify the materials and develop processes for them.

Any difficulties people were having with going Clear were handled in the mid-60s and OT levels as they exist in Advanced Orgs were completed by 68. There are perhaps 15 levels above OT VII fully developed but existing only in unissued note form, pending more peoples' full attainment of OT VI and VII.

In the early 70s the bottom was found with the discoveries of exactly what psychosis was and the development of processes to handle it. This was outside

game of triumphant life itself*

the scope of organizations at the time and is not in general use. But it did finalize the task of undercutting low enough to include all spiritual and mental materials, then, within the subject of Scientology, in a state of applicability.

Many people believe that Scientology materials contain mainly processes. They think of Scientology as processing. This is a very narrow view. It is understandable enough as processing is the way out for them. But this neglects the more considerable materials which deal with basics and fundamentals; processes are only one use of these.

Still others think that the "newest" is of course the most advanced and are looking for new "processes" to be issued or new materials, whereas the process to

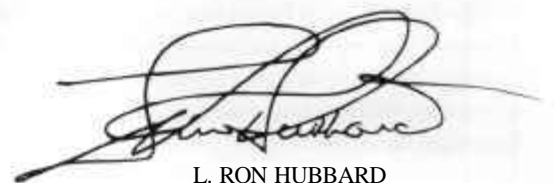

resolve their case was most likely issued in earlier years. An amusing instance of this is one whole continental area where an exact set of principles were isolated and exact processes released that handle that exact national type. Yet, waiting for something new because they did not know the old, they were found earlier this year to be ignoring this rundown even on new preclears and of course were having a hard time of it for those ARE the basic processes for that continent, for those people DO have that barrier.

For quite a while I have had the "hat of finder of lost tech." Whole sections of knowledge drop out of view, whole arrays of processes (and administrative principles) go out of use and preclears there and the organization of the area sags; but recovery is swift the moment the "lost" knowledge is pulled out of their own file cabinets and restored.

Further, people in organizations are quite often at high case levels. They have already experienced the bridging knowledge which connects the subject to the man in the street. It is not new to THEM. They sometimes err in believing it is not new to the world. Thus gaps are permitted to exist. The solution is to recover the "lost" tech.

We are very rich in materials, in results and in the potential future. Through our hardest times we have endured. Into our brightest times we are expanding.

These materials contain the full basics of the only game in the universe where everyone wins, the game of triumphant life itself.

THE ULTRA OT SUMMIT

Tomorrow *has* Arrived

The Ultra OT Summit 2007 was a watershed in our history. From here, Scientology changes FOREVER.

I IT WAS AN EPIC WEEK OF EVENTS, MARKING THE 19TH ANNIVERSARY OF THE *FREEWINDS'* MAIDEN VOYAGE AND OT SUMMIT. Owing to sheer magnitude and scope, it was held at and co-hosted by the Flag Land Base and attended by more than 6,500, including 1,000 OT Ambassadors and leaders of every OT Committee around the world.

Chairman of the Board Religious Technology Center, Mr. David Miscavige, presented the global view of our most significant steps toward planetary clearing ever:

- OT Ambassadors spearheading another year of milestone accomplishment in the name of Ideal Orgs and The Bridge to OT.
- Advanced Organizations, the *Freewinds* and the Flag Service Organization generating an OT boom at all levels of that Bridge.
- IAS-powered campaigns salvaging the Fourth Dynamic, while laying the keystones of a new civilization with Ideal Orgs at strategic crossroads of Earth.
- And the defining event: the monumental announcement of the Golden Age of Knowledge Phase Two—LRH tech restored and now ours for eternity, changing the definition of what it even means to *be* a Scientologist.

Scientology will *never* be the same again.

Tomorrow *has* arrived.

A Year of OT Action and Expansion

While the spirit of play pervades OT Ambassador activities, in the final analysis their role in planetary clearing is serious business as they carve a wide, no-nonsense path toward our ultimate victory.

As is traditional, the OT Summit anniversary is the setting of the annual OT Ambassador review.

Before de-boarding the *Freewinds* twelve months earlier, all OT Ambassadors were issued a program comprised of three major targets. Specifically:

- 1) To drive forward the creation of Ideal Orgs in your zone, now that it can be done anywhere and everywhere.
- 2) To forward the Golden Age of Knowledge to all Scientologists in your area through a concerted drive on getting everyone to avail themselves of the LRH legacy of the tech. And,
- 3) To take full-responsibility, as an OT Ambassador, for helping every Scientologist up The Bridge to OT.

The degree to which those targets were attained defines the scope of the year's OT Ambassador activities. Following is the thumbnail account of their continent-by-continent accomplishments for 2006-2007:

Clearwater

In Clearwater, the 246 Ambassadors from Flag's Central OT Committee serve as the "mother ship" for all Ambassadors and Committees world over, strategizing and coordinating global target attainment, and all led by OT Ambassador I/C Sheryle Festa. This year they zeroed in on two new Tampa Test Centers: first in Plant City, then again in St. Petersburg. Since the prior summit, 15 players from the Clearwater team—including

three OT VIIIs and an OT VII-plugged into the main generator as live-wire Tampa Org staff!

While to power expansion across the rest of the network, the Central OT Committee hit the switch with the likes of Nancy Sadwick pumping up The Bridge flow in Orlando, Mark Sheffler dealing an OT hand in Vegas, Matt Feshbach for energy seminars in Toronto, Gro Miller beefing up the Norwegian teams, Ray Barton enlightening Sydney, and Flag OT Committee Chairman herself, Kaye Champagne, in both Buffalo and Detroit. The final mileage was more than 508 Bridge events and 41,731 volunteer hours!

Africa

The tale of the 15 OT Ambassadors out of Africa was about simultaneously building future Ideal Orgs and preparing new ground for outlying missions. Led by OT Ambassador I/C Sandy Kroeger, they boast an OT Committee of 171. And they were all over program targets within days of de-boarding last year, whereupon it was an all-continental Clear Africa Conference in Joburg.

Meanwhile, the tune that tops the charts down in Cape Town is "Ideal Org, Here We Come." Beyond raising wherewithal for renos, Helen Fritsch and company logged in 1,000 hours to update, sort and label Central Files.

Likewise the year saw the latest outpost on a pioneering push from OT Committee Chairman Ciaran Ryan with a new mission in Nairobi, stringing a delivery line right to the rim of the Sahara. Also cutting trails across the

AFRICAN OT AMBASSADORS AND COMMITTEE LEADERS at the Clear Africa Conference in Joburg.

OT PLANNING COMMITTEE MELBOURNE at the planning table.

ABOVE: The New Auckland Ideal Org on New Zealand's North Island.
BELOW: Canada's future Ideal Org for Winnipeg.

African veldt are Ambassadors Ernest and Gaye Corbett, all the way into the lion country of the Masai.

Yet the phrase "New Civilization arising in Africa" also plays out like this: While sowing Soweto township with LRH tech, Joburg OT Committee "Goal Maker" Robin Hogarth discovered an unsung gospel choir, routed them into a joburg studio to produce an album called "Blessed" and, sure enough, he was blessed with a Grammy for Best Traditional World Music at the 49th Annual Awards in Los Angeles.

Through 457 community events across 3,000 kilometers, the African Ambassadors clocked in 10,685 hours on OT projects to set the stage for Ideal Orgs, helping bring LRH tech to better than a million people throughout the year!

Australia

The 21 Ambassadors of the Southern Hemisphere in ANZO rallied in Sydney to pool OT Committee talent from Auckland, Brisbane, Melbourne, Canberra and Perth. Then into the bush like "The Man From Snowy River," the Sydney OTs were charging for three more floors on their future Ideal Org along Castlereagh Street.

Meanwhile, Melbourne Ambassadors Andrew and Pat Rinder were rough-riding for renos on their future home along Mt. Alexander.

The total down under was to move 856 people ever closer to the top of The Bridge, while swelling their own ranks to 192 and tripling the number of those on Solo NOTs!

New Zealand

Auckland's building for a future New Zealand Ideal Org is like something from the pages of Harry Potter. To work that kind of magic, the 16-man Auckland Committee conjured up 245 volunteer hours per person.

Canada

Coming out of the 2006 OT Summit, the 21 Ambassadors of Canada lined up for a slap shot, led by team captain Janice Wheeler who, after a power play, passed the stick to Lead FSM and OT Ambassador David Erison. At which point they were carving up the ice like nobody this side of Wayne Gretsky for a half-time score that read: 350 Bridge flow events and briefings and 23 Torontoitos skating off to Flag for services.

Likewise playing numbers to win was the Quebecois team led by Guy Peloquin. And with inimitable style, the Montreal OT Committee tipped their roster from 15 to 52.

Needless to say, Canada's "Rookie of the Year" is our new Ideal Org-to-be in Winnipeg. Her local team leader just swapped an OT Committee jersey for staff colors, and they are about to hit the ice all over Manitoba and Saskatchewan.

The big scoreboard in Canada now reads: highest ever number of OT project hours, highest ever number of Clears and OTs onto next steps and triple the numbers of those on Solo NOTs!

Latam

The Latin American OT Ambassador team now stands at 36, fielding an OT Committee of 152.

They met in Mexico City and wearing the heavy braid was ITD Committee Chairman Ruthie Lan, OT Ambassador I/C Mary Jo Leavitt and 2006 OT Leadership Award winner Marcos Salame. They worked an age-old formula borrowed from alchemy to transmute gold and silver pledge coins into real bricks on the real ground floor of their future ITD, now rising on Juarez Avenue. They also packed out halls to get everyone on board, and the shining example of that was new OT VIII Lilys Bronsoiler signing on to ITD staff.

The team from ODD juggled a dozen balls at once between Ideal Org rallies, Bridge flow events, Congresses

and a Way to Happiness campaign right through the Presidential Palace.

Venezuela's big production fundraiser with the likes of Gurrus De Nieto provided more than half a million reasons to believe in future Ideal Orgs across Latam.

While to cap the Latam story: it was highest ever on board the Committees, highest ever on and up The Bridge, and highest commitment in history to five new Ideal Orgs now on their continental runway.

United Kingdom

Rivaling the tales of King Arthur are the Legendary Forty, the OT Ambassadors from the UK led by Britain's OT Ambassador I/C David Gaiman and Saint Hill Chairlady Gaby Gadiot. In June 2006 their Great London Filing Project followed Jenny Scarfe-Beckett's unsheathed broadsword into the monster's lair and rescued 130,000 files in distress. Then, taking the truly heroic stand, were nine OT Committee members now donning the colors of London's Ideal Org staff members.

In Manchester, our Ideal Org-to-be is being lovingly crafted by OT Ambassador Richard Bromley and company, who raised a king's ransom for renovations and spruced up 27 feet of Central Files.

Considering the chronicles across the whole Empire, it tallies like this: double the number of those advancing up The Bridge, better than double the numbers on the OT Committees and double again the number of those donning the armor of Ideal Org staff!

Europe

In Europe, the concentrated OT power of 264 Ambassadors in 44 cities across 13 nations has developed into an Ideal Org epidemic.

Starting in Berlin, Germany, our latest IAS-sponsored Ideal Org revitalized an OT Committee of 20 core members—not including the ten who signed on to Berlin

staff. In fact, it has infected the whole field, including Dtlsseldorf and Munich—all now pushing up the thermometer for their future Ideal Org. Hamburg is not immune, with 2,800 volunteer hours on Congresses and Bridge flow events. Stuttgart also caught a dose and OT Ambassador I/C Stefan Schneider is spreading it with fundraisers and action events.

Switzerland is also hurting for an Ideal Org and in Zurich, OT Committee Chairman Juraj Lipscher delivers the antidote—fundraisers, Bridge flow and Congresses. Then there is the real booster shot: eight Zurich OTs signing up for staff during the year.

Madrid, home to our National Church in Spain, was all the more susceptible to an infection wherein OT Committees obsessively work to expand Bridge flow by building new test centers.

Italy's Ambassadors number 107 with an OT Committee five times that. They treat their nation with prescription-strength Ideal Orgs and Bridge flow events. Milano's busting at the seams, and up to center stage stepped OT Leadership Award winners Franco Useri and Pino Gangi Dino, at which point their Building Expansion Fund was positively glowing with good health. Brescia is likewise flush with Ideal Org-itis. Padova's Ideal Org needs a little cosmetic surgery and a test center, all being readied under the leadership of Silvano Gentilin. But when talking potent medicine, there's the future Ideal Org of Torino. OT Committee I/C Umberto Mastrocola heads the plastic surgery team that will take the former monastery into the 21st century, with fundraisers and Bridge flow events every day of the year, also thereby doubling the number on Solo NOTs.

There is more again across Mother Russia, where rampant Ideal Org fever is all over Moscow and St. Petersburg.

There's still more in Amsterdam, where they picked up the germ for Ideal Orgs after last year's Maiden Voyage.

And it is absolutely an epidemic in Stockholm, where all five Swedish OT VIII's stepped up as Class V Org staff.

After treatments like that, Europe is the picture of health with 545 done targets toward new Ideal Orgs, 4,052 taking their next step on The Bridge and 128,729 volunteer hours on OT projects!

Eastern US

Turning to the USA and the final stretch of highway for the OT year-in-review, the East US teams couldn't care less about local speed limits, with eight Ideal Orgs and a dozen test centers just up the track.

On the Eastern seaboard circuit, it was Mohsen and Janine Zargar in Manhattan popping the clutch on fundraisers for a score of test centers now in warm-up. In Boston, it's a new building on the conveyor belt and a public information campaign to clear on-ramps to The Bridge with facts and figures on all frontline LRH tech regularly airing to more than a million. The nation's capital is also due for an Ideal Org. It will stand six blocks from the White House, which explains why Pennsylvania Avenue residents hear revving engines when OT Ambassador I/C Greg Layton hits all cylinders on his Bridge flow events, as the rest of his crew floor it through Central Files.

In Buffalo, New York, it's a fully loaded high-performance Ideal Org with New OT VIII Jim Bush riding shotgun along with fellow OTs Denise Tremblay and Blanca Brouzet.

Philadelphia, too, is putting an Ideal Org on the track: a limited edition, super-charged classic. OT VIII and OT Ambassador Sue Moore has already revved it up to three million RPMs and with OT Ambassadors Chuck Simon, Dennis Dubin and Garnet Palmer, they made it happen in record time. But taking the wheel for the long haul is OT Ambassador Marina Simon, who signed aboard as Philly staff.

Detroit hit the pavement after the 2006 voyage with OT VIII and OT Ambassador I/C Alan Kellman shifting through strategy seminars to power up a Central Files project, and airborne fundraiser OT VIII and East US Ambassador I/C John Stout soaring at 245,000 feet on a single night. Moreover, New OT VIII Jack Sushko grabbed the throttle as Detroit Foundation staff.

In the Great Lakes region of the Midwest, the Cincinnati team with Ambassadors Lonnie and Naomi Davis in the cockpit has the biggest OT Committee east of the Rockies, revving to customize their building with every Ideal Org feature in the shop. The Chicago team driven by OT Ambassador Jeff Magee got the checkered flag at the LRH Birthday celebration for their new Ideal Org in the "Windy City."

Deep South, the future home of Atlanta is like something from "Gone With the Wind" and the campaign theme: "Frankly,

Dear, we do give a damn." While to prove it, OT Ambassador Janet Lehman and company collected nearly two million reasons this year to rebuild Atlanta in style. The Miami Machine under OT Ambassador Marie Williams raised the Jolly Roger for a swashbuckling new building campaign, with even the original Pirates of the Caribbean people at Disney World stepping on board. Puerto Rico is meanwhile driving the island highway to a new Ideal Org in San Juan, with OT Ambassador Eddy Hernandez at the wheel.

On East US odometers this year: 681 OT Committee members, who drove 2,719 up The Bridge and no less than 76,107 volunteer hours on OT projects for new Ideal Orgs!

Western US

West US is wide-open country where 505 OT Ambassadors walk tall in some two dozen cities.

In the heart of the Midwest, the St. Louis Cowboys roped in a big one this year at nearly 60,000 square feet and now they are on a roundup for renos. Kansas City's OT Wranglers are already hot on the reno trail for their new Ideal Org at the center of America, while the Twin Cities team under OT Ambassadors Sherry and David Brier is fixing to lasso a prime building this year.

In Austin, the "Texas Tornadoes" are kicking up a storm for their own Ideal Org. Dallas already got themselves a spread, and OT Ambassador I/Cs Mauri and Ken Kargar and their team are on the rodeo circuit for renos. While in Las Vegas, OT Ambassador Steve Yeich signed on as Senior C/S of the Vegas Org, and Denver's slew of OTC members are now sporting hardhats to signify their place on the Building Fund Committee.

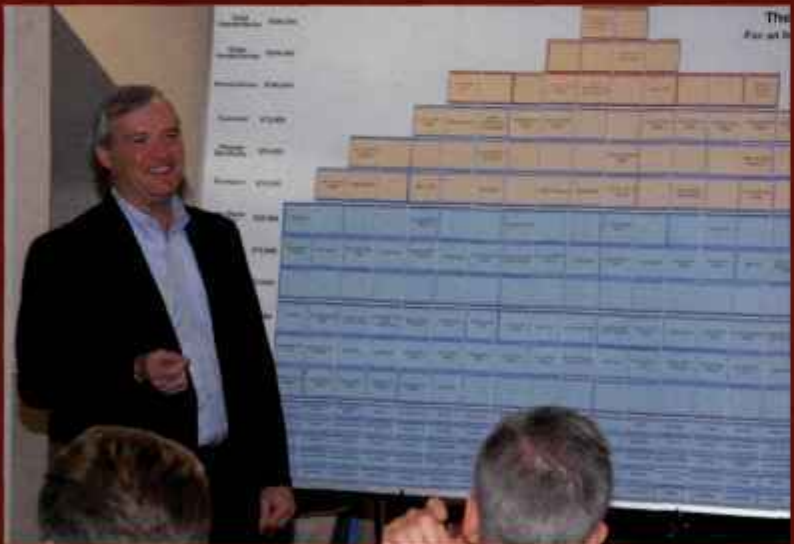

Up and down the Pacific coast, Seattle OT Ambassador I/C Dan Sorenson filled a high-commitment stage with reno funds contributors, while the Portland team under Sarah Condon counted four million reasons to call themselves big league Ideal Org players. Sacramento's Don Pearson and his team stormed through 20,000 Central Files and five OTs signed on to Sacramento's Ideal Org in the making. The San Francisco Bay is the main drag of Ideal Org Boulevard. At the first stop in Mountain View, OT Committee I/C Dennis Feeney and crew are the action figures on expansion across the whole Silicon Valley. Then there's SFO out for a community center like nobody's business,

BUFFALO CITY: Bookselling at Niagra Falls

BELOW: OT Ambassadors at the Book-a-thon in Washington, DC.

OT Ambassador Tina McGurk and team playing for blood to get it. Stevens Creek and Los Gatos are likewise gunning for expansion space with a joint OT Committee "fund racer." San Diego suited up for an Ideal Org while Santa Barbara's first string Bridge flow team drop-kicked more than twenty OTs on up the Grade Chart and Orange County OT Gilda West is now on board carrying the ball for Division Six!

In the LA basin, Valley has 120 OT Committee members behind team leaders Drew Johnston and Kathy Heard and already within field goal distance of an Ideal Org. Pasadena's got an edge because Sally Jensen is OT Ambassador I/C for the whole USA, Latam and Canadian league, but that doesn't mean Pasadena team leader Craigjensen doesn't have to fight for every yard gained. Or as the case may be, every strike at the lanes on their "Guilt-Free Bowling for Ideal Org Night." But no one knocks down pins like OT VIII's Sherry Katz and Rona Bowles who signed onto the "A-Team" as Pasadena staff. LA Org's Central Files date from 1950,

with something on the order of 320,000 names. LA Org OT Ambassador Dave Kluge and team logged more than 5,000 hours to make those files letter perfect and otherwise ideal, while seven more OTs stepped aboard as LA Org staff.

The OT Committee at CC Int personally helped 821 people onto and up The Bridge, while the AOLA OT Committee, 173 strong, registered on the Richter scale as follows: 244 Clears onto next steps, same for 225 pre-OTs and 1,384 on the lower rungs.

And the West US OT Committee of the *Freewinds*, helmed by New OT VIII and Power FSM Harvey Schmiedeke, fired 24 events amidships and escorted 410 on board for *Freewinds*' services.

West US galloped across the finish line as follows: 2,545 Bridge flow events, 11,332 onto next steps to Clear and OT and 180,246 volunteer hours on OT projects for Ideal Orgs!

Org by org, continent by continent and country by country, the OT Ambassador force has staked their ground: every org in the world is going to be Ideal *no.v*.

THE ENGINE CONTROL ROOM

In his OT Summit address, *Freewinds* Captain Mike Napier recounted the year's accomplishments. The year 2007 etched a historic entry in the *Freewinds* sailing log: passage of her 300,000 nautical mile mark, equivalent to safely circumnavigating the globe thirteen times.

The *Freewinds* has earned a reputation for saving lives and property through search and rescue operations off the Venezuelan coast, off the Cuban coast, St. Kitts, St. Vincent and the Bahamas. Add dozens more acts of help and valor at sea and that is why governments, port authorities and oceangoing commercial enterprises

have colored her passages with more than 100 awards and recognitions—distinguishing the *Freewinds* as the most decorated vessel in her waters.

In sheer quantity of sea expertise, the *Freewinds* is in a league of her own. She has elevated sea travel across the entire Caribbean as a floating training base for the Curacao Maritime School, educating sea personnel with LRH Study Tech on engine room procedure, bridge operations, lifeboat handling and simulated disaster response.

As a result of her high maritime achievements and repute, the Sea Org Motor Vessel *Freewinds* is the

only passenger ship on seven seas now designated as an official training vessel by the International Maritime Organization of the United Nations.

READYING FOR NEW OT IX AND X

With every org becoming Ideal, the *Freewinds* readying to sail all Scientologists straight into OT IX and X.

The first stop will be dry dock in home port, Curacao, for a full refit. Her main engine room switchboard will transform to full digital and her 20-ton twin diesels will refurbish for the long haul with all 14,000 horses thundering 9,000 tons of craft at 20 knots. Her bridge

for New OT IX and X

will similarly ready up with the most contemporary digital facilities, and her safety systems will exceed any and all maritime regulations.

All spaces will be re-fit with timeless maritime beauty, from the reception lobby to the dining and event facilities, such as the Horizon Restaurant with its unbroken view of boundless ocean, and that most popular of OT gathering points atop an infinite vista, the Sky Lounge.

All 100 guest cabins are scheduled for a bulkhead to bulkhead upgrade: staterooms to be expressly fitted for solo auditing with every need and convenience designed and built in to the highest nautical standards.

The *Freewinds* HGCs will mark new sea lanes to OT: brand-new auditing rooms with the perfect balance of beauty and seamanlike efficiency, every inch a testament to technical perfection.

Moreover, the Main Deck and A-Deck course rooms will seat hundreds for OT theory, shaking down delivery times with a new electronic tracking system.

Every detail of the *Freewinds* has been honed to speed your advance to OT, and all of it is soon to be yours.

Details of the Freewinds refit and refurbishing are contained in a special video presentation available as part of the OT Summit 2007 event shouting in every org.

The *New* Flag Land

The grand design of

THE NEW ADVANCED ORG

THE FORT HARRISON HOTEL

THE OAK COVE

THE OCEANVIEW HOTEL

With OT Ambassadors driving new Ideal Orgs to the skylines and our OT ship preparing for the coming release of sections IX and X, there is yet the rest of the superstructure for the making of OTs planetwide.

That structure, spanning the entire Bridge, is *Flag*. In the 12 months before the OT Summit 2007, Flag pushed auditing and training volume to the sound barrier: In the Advanced Org alone, 138,000 sessions in 14 languages to

pre-OTs from 45 nations and Flag Solo NOTs Auditors pegging 6,000 hours a week.

The next geometric progression requires massive expansion of tech resources. Current programs under RTC are already preparing 123 new Class IXs for AOs, multiplying NOTs delivery potential by seven times. Those already on the flight deck are AOSH EU and UK, delivering NED for OTs in 11 and 13 languages respectively; AOSH ANZO, delivering in both Chinese

and Japanese and nearly doubling NOTs delivery; AOLA tripling their Class IXs, with 21 more in training and adding an entire second NOTs HOC.

Adding it all together, it's now OTs in 80 nations, with a new one arriving to Flag every 30 minutes, enough Class IX Auditors and Case Supervisors in training to swell the NOTs by ranks 30 times and enough Supervisors in training to increase OTs 200 times before decade's end.

our OT Superstructure

THE MECCA

But a global OT Boom requires still one more key ingredient: the *new* Flag Land Base.

THE FLAG LAND BASE OF THE VERY NEAR FUTURE

The new Flag Land Base begins just across from the Sandcastle in The Bellevedere, which now becomes the Oceanview Hotel, especially designed for those staying for the longer term to move through all levels to OT VII.

Next, a brand new 60,000 square foot AO Expansion

Building will house all Audited NOTs. Along with its five HGCs will be five course rooms to train thousands of OT auditors, including those who will establish *new* AOs.

Right on Clearwater Harbor, the Oak Cove becomes Flag's newest public hotel: 172,000 square feet, 240 guest rooms and a large restaurant. It will *also* serve as temporary home for Flag services. Whereupon we begin the complete Fort Harrison restoration.

All Fort Harrison facilities will rise to new heights of elegance: the Grand Lobby, Auditorium, Crystal Ballroom,

all restaurants and all 220 hotel rooms refurbished to perfection—and connected by a new overpass to the new Mecca with the never-before-available LRH Cause Resurgence and Super Power Rundowns. Further, while the Fort Harrison is restored, all final interior construction will be completed on the new Flag Mecca.

THE MECCA

From its three-story glass Atrium to its Chapel with "The Factors" on stained glass, one will enter the new

civilization we are creating. Here one will find the life and legacy of LRH, in both his office and the re-creation of the Apollo Research Room, all furnished with his own personal belongings.

The second floor includes the one and only Flag Bookstore, with every book and lecture, *all* materials, in *every* language.

The third floor holds Division Four delivery—50,000 square feet of training includes course rooms seating more than 1,300 students. Combined with all other facilities, that is one reason why Flag will be able to graduate up to 11,500 new auditors each year.

Up one more flight: the Ls, Flag-only rundowns and

Case Cracking services: 14 HGCs and 300 auditing rooms.

Then, Qual, and the most extensive Qual Library on Earth, with full computer access to a searchable LRH database.

And the *next* level: *Super Power*—a series of LRH rundowns to power *every* Scientologist into a new realm of ability, including the Perception Rundown—the likes of which has *never* before been seen on Earth. Drawn from LRH research and discovery, here will be the means to restore to a being all 57 perceptics, with higher-world drilling facilities expanding on NASA aerospace technology. Between auditing to remove disability and whole-track drills to restore native ability, one regains their perceptics as a spiritual being.

The use and purpose of the top floor is still to be announced, but is something "out of this world."

Finally, for the hub of worldwide news and dissemination, the new L. Ron Hubbard Hall—seven stories, an entire city block, and the ultimate venue for International events and everything grand on the Flag agenda.

Once again, that maxim is proven: while others talk of a better world, we are *making* one. This *is* our final push to fulfill LRH's greater legacy for a cleared planet and an OT civilization.

(Details of the new Flag Land Base are contained in a special video presentation available as part of the OT Summit 2007 showings in your org.)

THE BASICS

Welcome to The Golden Age of Knowledge for Eternity

The announcement from Clearwater, Florida, on June 30, 2007, ignited the chain reaction now sweeping across the Scientology world.

For it has everything to do not only with the lasting freedom of every individual, but planetary clearing itself.

T HIS IS THE EVENT YOU'VE BEEN WAITING FOR. And no, not just in terms of this OT Summit, but in terms of your past, present and future as a Scientologist." With those words, Mr. David Miscavige, Chairman of the Board RTC, began the event of the OT Summit 2007 that heralded the second phase of the Golden Age of Knowledge.

In a single evening, Scientology would change forever.

"Take our drive to clear this planet, and the fact that we've got to move *anyone* and *everyone* onto The Bridge—and tonight, we blow away the fundamental barrier to that accomplishment," Mr. Miscavige said.

"Then take it through to final 'completion' wherein every being can traverse the full *span* of The Bridge. And yes, there too, we blow away the fundamental obstacle to that accomplishment.

"For what we release tonight is not something affecting only the 'lower end' of The Bridge, or merely the 'upper end'—but the very pillar upon which, literally, rests the entire Bridge itself."

What followed was the distillation of more than five years and two million man-hours of intensive work into the ultimate story of Keeping Scientology Working—a presentation in which Mr. Miscavige revealed details of the investigation, the Whys and the discoveries that culminated in the epic release of the evening:

The Basics.

They encompass LRH's basic books—containing the written summation of every breakthrough in his developmental path of Dianetics and Scientology—in their *pure* form. And casting those breakthroughs in even more three-dimensional clarity, the lectures—including *entire series never before available*—in which LRH walked Scientologists through those discoveries with further explanations, anecdotes and illustrations.

The *Basics* comprise the "greatest recovery of lost tech in Dianetics and Scientology history," Mr. Miscavige said. "Or, to put it another way, the recovery of Dianetics and Scientology...*period*."

THE STORY EVERY SCIENTOLOGIST MUST KNOW

What exactly is meant by "lost tech," and how it happened, must be *seen* in the event itself to be realized.

It's the story that *every* Scientologist must know.

For *no one* had expected what was ultimately to be discovered.

And now, anyone can avail themselves of what was ultimately the conclusion—the basic materials of Dianetics and Scientology exactly as LRH intended them.

It means not only a level of understanding that was literally impossible before this release, but it changes the definition of what it even means to *be* a Scientologist.

That is why this is the event that everyone *must see*—or as repeated by Scientologists attending the event from Canberra, Australia to St. Petersburg, Russia, "It has to be seen to be believed. This is what I've been waiting for."

And as one succinctly put it, "It is the event of all time."

For the *Basics* embody the very meaning of the Golden Age of Knowledge itself.

"YOU GET THE RESULTS"

The *knowledge* of Dianetics and Scientology is as vital as training and processing, as fundamental to attaining lasting freedom as the route up the Classification and Gradation Chart itself.

As LRH said in his article, "The Materials of Scientology," "Many people believe that Scientology materials contain mainly processes. They think of Scientology as processing. This is a very narrow view. It is understandable enough as processing is the way out for them. But this neglects the more considerable materials which deal with basics and fundamentals."

Each book and lecture series of the *Basics* is a distinct body of technology, building one upon the next for

complete knowingness. Spanning the reactive mind to exterior OT ability, they embrace the advance of LRH's discoveries on that route, including the Tone Scale, Prime Thought and the Ideal State of Being, the Whole Track, Life Energy and the Potentials of Theta.

It's the developmental journey every Scientologist must travel and know to the core for the sake of their own eternity.

And with all that's been accomplished through the most extensive RTC program *ever* to recover the basics in their pure and complete form, it's not only possible like never before, but now being achieved as routine.

For, as Mr. Miscavige said, "When you get the Tech as LRH intended, in the exact form he intended—you get the *results* he intended when you apply it in your life."

"ALL OF A SUDDEN...THE WHOLE OF EXISTENCE MAKES SENSE"

Scientologists world over are experiencing those results.

As a Field Staff Member in Clearwater, Florida, said, "I see how life really can be lived. I thought I already knew about Scientology, but this opened my eyes and I was able to see Scientology at a much broader perspective. The *Basics* really are brilliant and fantastically simple. My speed of study is at least twice as fast as it ever has been. And the understanding is more than ever. This is totally understandable. It's truth, pure and simple!"

That newfound understanding and knowingness is echoed in the statements of Scientologists from the entrance of The Bridge to the top.

The Golden Age of Knowledge Basics Courses

With the monumental release of the Basics came the announcement of the Golden Age of Knowledge Basics Courses to see that every Scientologist knows them to their very core.

The Basics contain the fundamentals of Dianetics and Scientology LRH wanted every Scientologist to *know* for their own eternity. Moreover, he worked for more than three and a half decades to make it possible for you to know those fundamentals with *certainty* and *speed*.

Both are achieved with the Golden Age of Knowledge Basics Books & Lectures Courses, studied in your org with employing the scope of LRH's Study Tech so that you'll *know* them as *part* of you.

The books and lectures contain the discoveries and codifications LRH made during the pivotal early years when the foundations of the subject were laid down. Yet, until now, they have *never been* available.

The lectures comprise the running record of his research into the mind, spirit and life, while the books are the summary conclusions of his monumental discoveries. Here are not only the basics such as ARC, the Tone Scale and The Factors, here too are the principal incidents on the whole track, the electronics of human thought, the potentials of theta, exterior OT abilities and much more.

The books are now published in a form unlike any you have *ever* seen—a form that fulfills LRH's exact intentions for each work. Ease of duplication is hundreds of percent greater. And when combined with the specific lectures for each book—all studied in the chronological order in which LRH released them—one reaches a level of clarity and understanding far surpassing anything previously attainable.

The essence of the books & lectures courses is for you to make the knowledge your *own*. They parallel the LRH breakthroughs contained in the Basics books and lectures and are studied in exact chronological sequence. They assist you to work with the fundamental concepts

*"I know Dianetics and
Scientology—to my core! Each
book, each lecture, builds on the
next and adds new and important
data for your life. The subjects of
Scientology and Dianetics are mine
now. These materials have
THE answers and I know
how to use them."*

A.L., Student

of Dianetics and Scientology as an intrinsic part of your thinking. And when you factor in such elemental basics as the Axioms, the laws of life, the truths of the physical universe, when you think with those basic truths as second

nature—and you gain a certainty on the technology to carry *all* the way up the track.

Further, moving up the Route to Knowledge also accelerates one's progress up the *processing* side of The Bridge.

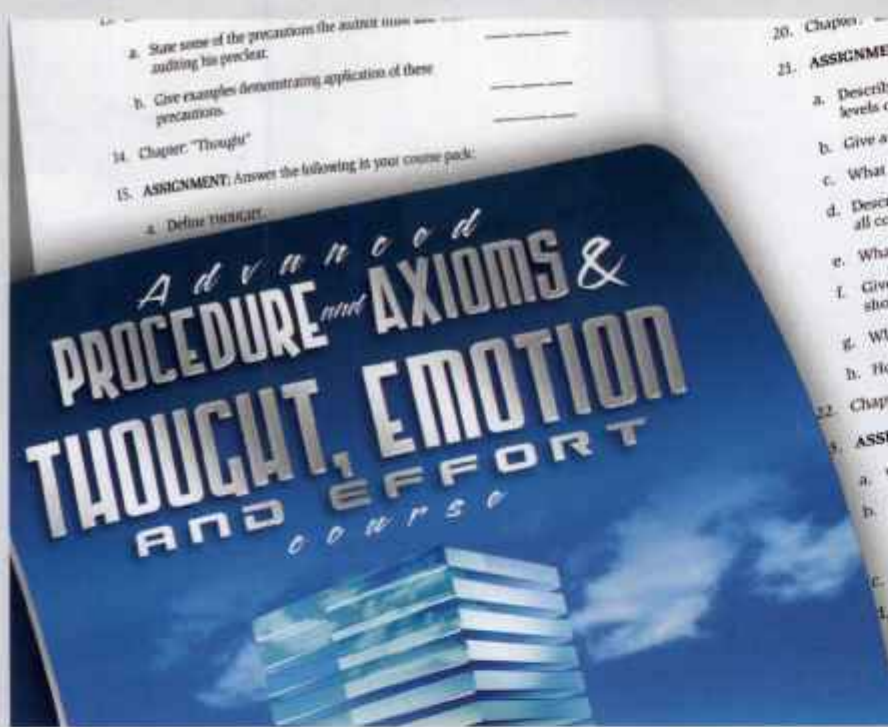

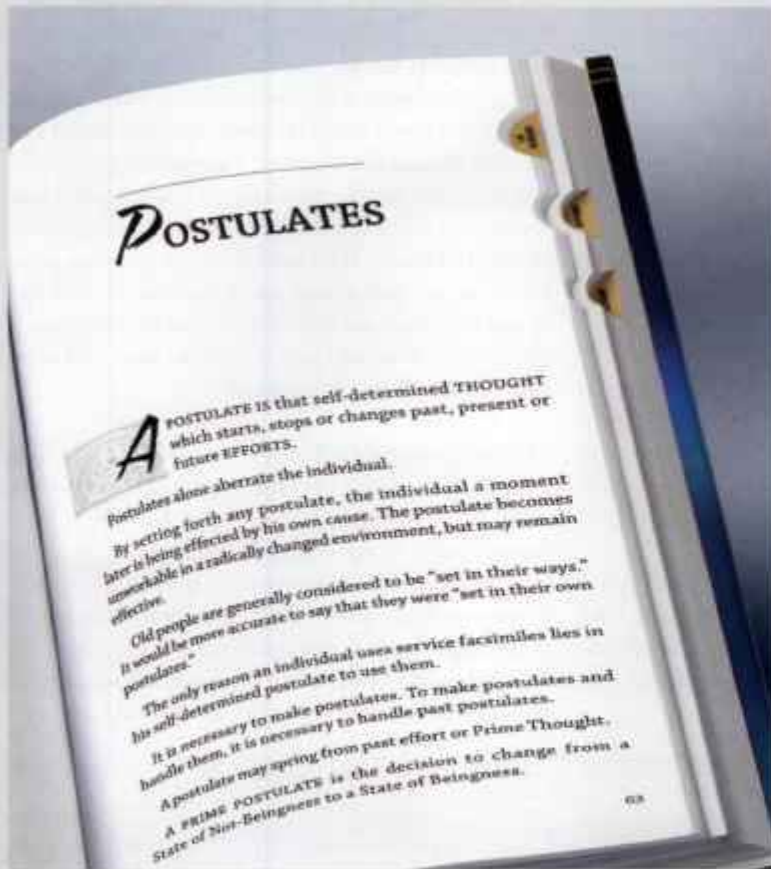

Every organization in the world is prepared for your arrival on course.

WHAT THE COURSES CONSIST OF

The courses mark a first in the history of Scientology. Each book and companion lecture series has its own individual course checksheet and pack. The first course is *Dianetics: The Modern Science of Mental Health Be The Dianetics Lectures and Demonstrations*. The lineup continues through the chronological study to *Scientology: The Fundamentals of Thought & Hubbard Professional Course Lectures*. It also includes the *Self Analysis* Course (book only) and the two lecture-only courses, *Scientology: Milestone One* and *The Route to Infinity*, all of which are essential advancements on LRH's full developmental track.

FULL ACCREDITATION

The Golden Age of Knowledge Basics Books & Lectures Courses are accredited toward all of your future training. When you study a course with book requirements, such as the Academy Levels, the Briefing Course or Solo, your prior book studies on the Basics Courses are validated on those checksheets, and you can focus on drilling, metering, TRs and HCOB study in your training.

ABOVE AND LEFT: In the Basics lectures, LRH tutors you on the precise subjects in the book, in many instances on a chapter-by-lecture basis. For example, book chapter "Postulates" and the lecture "Basic Postulates." Or, book chapter "Thought" with the lecture "Prime Thought" and book chapter "Advanced Procedure" with the lecture of the same title, LEFT: The Book & Lecture Course packs contain questions expressly developed for study based on LRH guidelines. The course design provides maximum speed with complete duplication by assisting you to think with the key datums, definitions, laws and axioms.

RIGHT: The Clearsound CD Listening System. All org course rooms have been equipped with specially manufactured LRH lecture systems designed by Golden Era Productions. This is as close as it gets to sitting with Ron as he speaks to you personally on the Basics. The CD player is outfitted with a foot-pedal so your hands remain free for your materials. It also features a 1/2-second "quick-replay" that speeds your study: if you want to skip back to hear a sentence one more time, or need to jump back after clearing a word, you do so at one push of the pedal—just the amount needed to put the word in context and continue studying from there.

THE BASICS BOOKS & LECTURES COURSES: WHAT STUDENTS ARE SAYING

"Everything falls into place. There are no gaps. No questions. No missing parts that cannot quite be followed. I am studying LRH in the proper and intended sequence and I am duplicating the materials 100 percent!"

"Honestly, I have to say that I did not know what Scientology was before this, it seems incredible when I think about it. One of the first realizations I had was that I did not know. So this has been an adventure and a journey from not knowing to knowing."

"Every question I had, every confusion has been answered. I've received more real truth in the past few weeks combined than at any time in the last several trillion years. This is information that salvages a being. It takes one from the full darkness of ignorance

and entrapment to the stratospheric heights of OT. My whole viewpoint of everything has changed."

"Frankly, this is what I've been thirsting for, searching for. This is data that will last me into eternity. And the way it's been laid out has made it a breeze. Now I understand the developmental track, all the changes and ups and downs and avenues LRH researched into to finally locate the thetan and unleash its full potential."

"I would say that one has a fragment of an understanding of Scientology when one hasn't studied these materials. I don't care how much you've studied—if you haven't studied these materials in sequence, you frankly just don't know."

"I have been an active Scientologist since I Was 12. Now, at 33 and a Grad V Auditor, I am studying the Basics on this amazing course of study, and duplicating them completely. THIS is what Scientology is all about!!"

"I became like a sponge—I was just absorbing the data. It was like you could have taken the book and just infused it. I just assimilated it—cover and all! It's like you are in a desert, completely dehydrated and parched dry with a raspy throat. Then you are given water. You just begin gulping, your eyes get really big, and your sensibilities say, 'THIS IS INCREDIBLE!' and you drink heavily and deeply. With water, however, there is a point where you just have to stop, simply because you have had so much you feel uncomfortable. Not so with this data. It just keeps flowing in, faster and faster, more and more with concepts flying off the pages."

"Having completed all of LRH's Basics books and lectures I can proudly say I know Dianetics and Scientology—to my core! Each book, each lecture, builds on the next and adds new and important data for your life. This has been the story of this study as it went—reading data I thought I knew and seeing it in its correct light and how it all goes together. The subjects of Scientology and Dianetics are mine now. These materials have THE answers and I know how to use them."

"It was a rocket ride yet it was timeless. Everything about the books—the way they are presented, the glossaries, the layout—and the course itself—make the entire thing smooth and fast. It made total duplication and conceptual understanding possible. There was no gap in understanding. There were times when I just blew charge for hours. It was wild!"

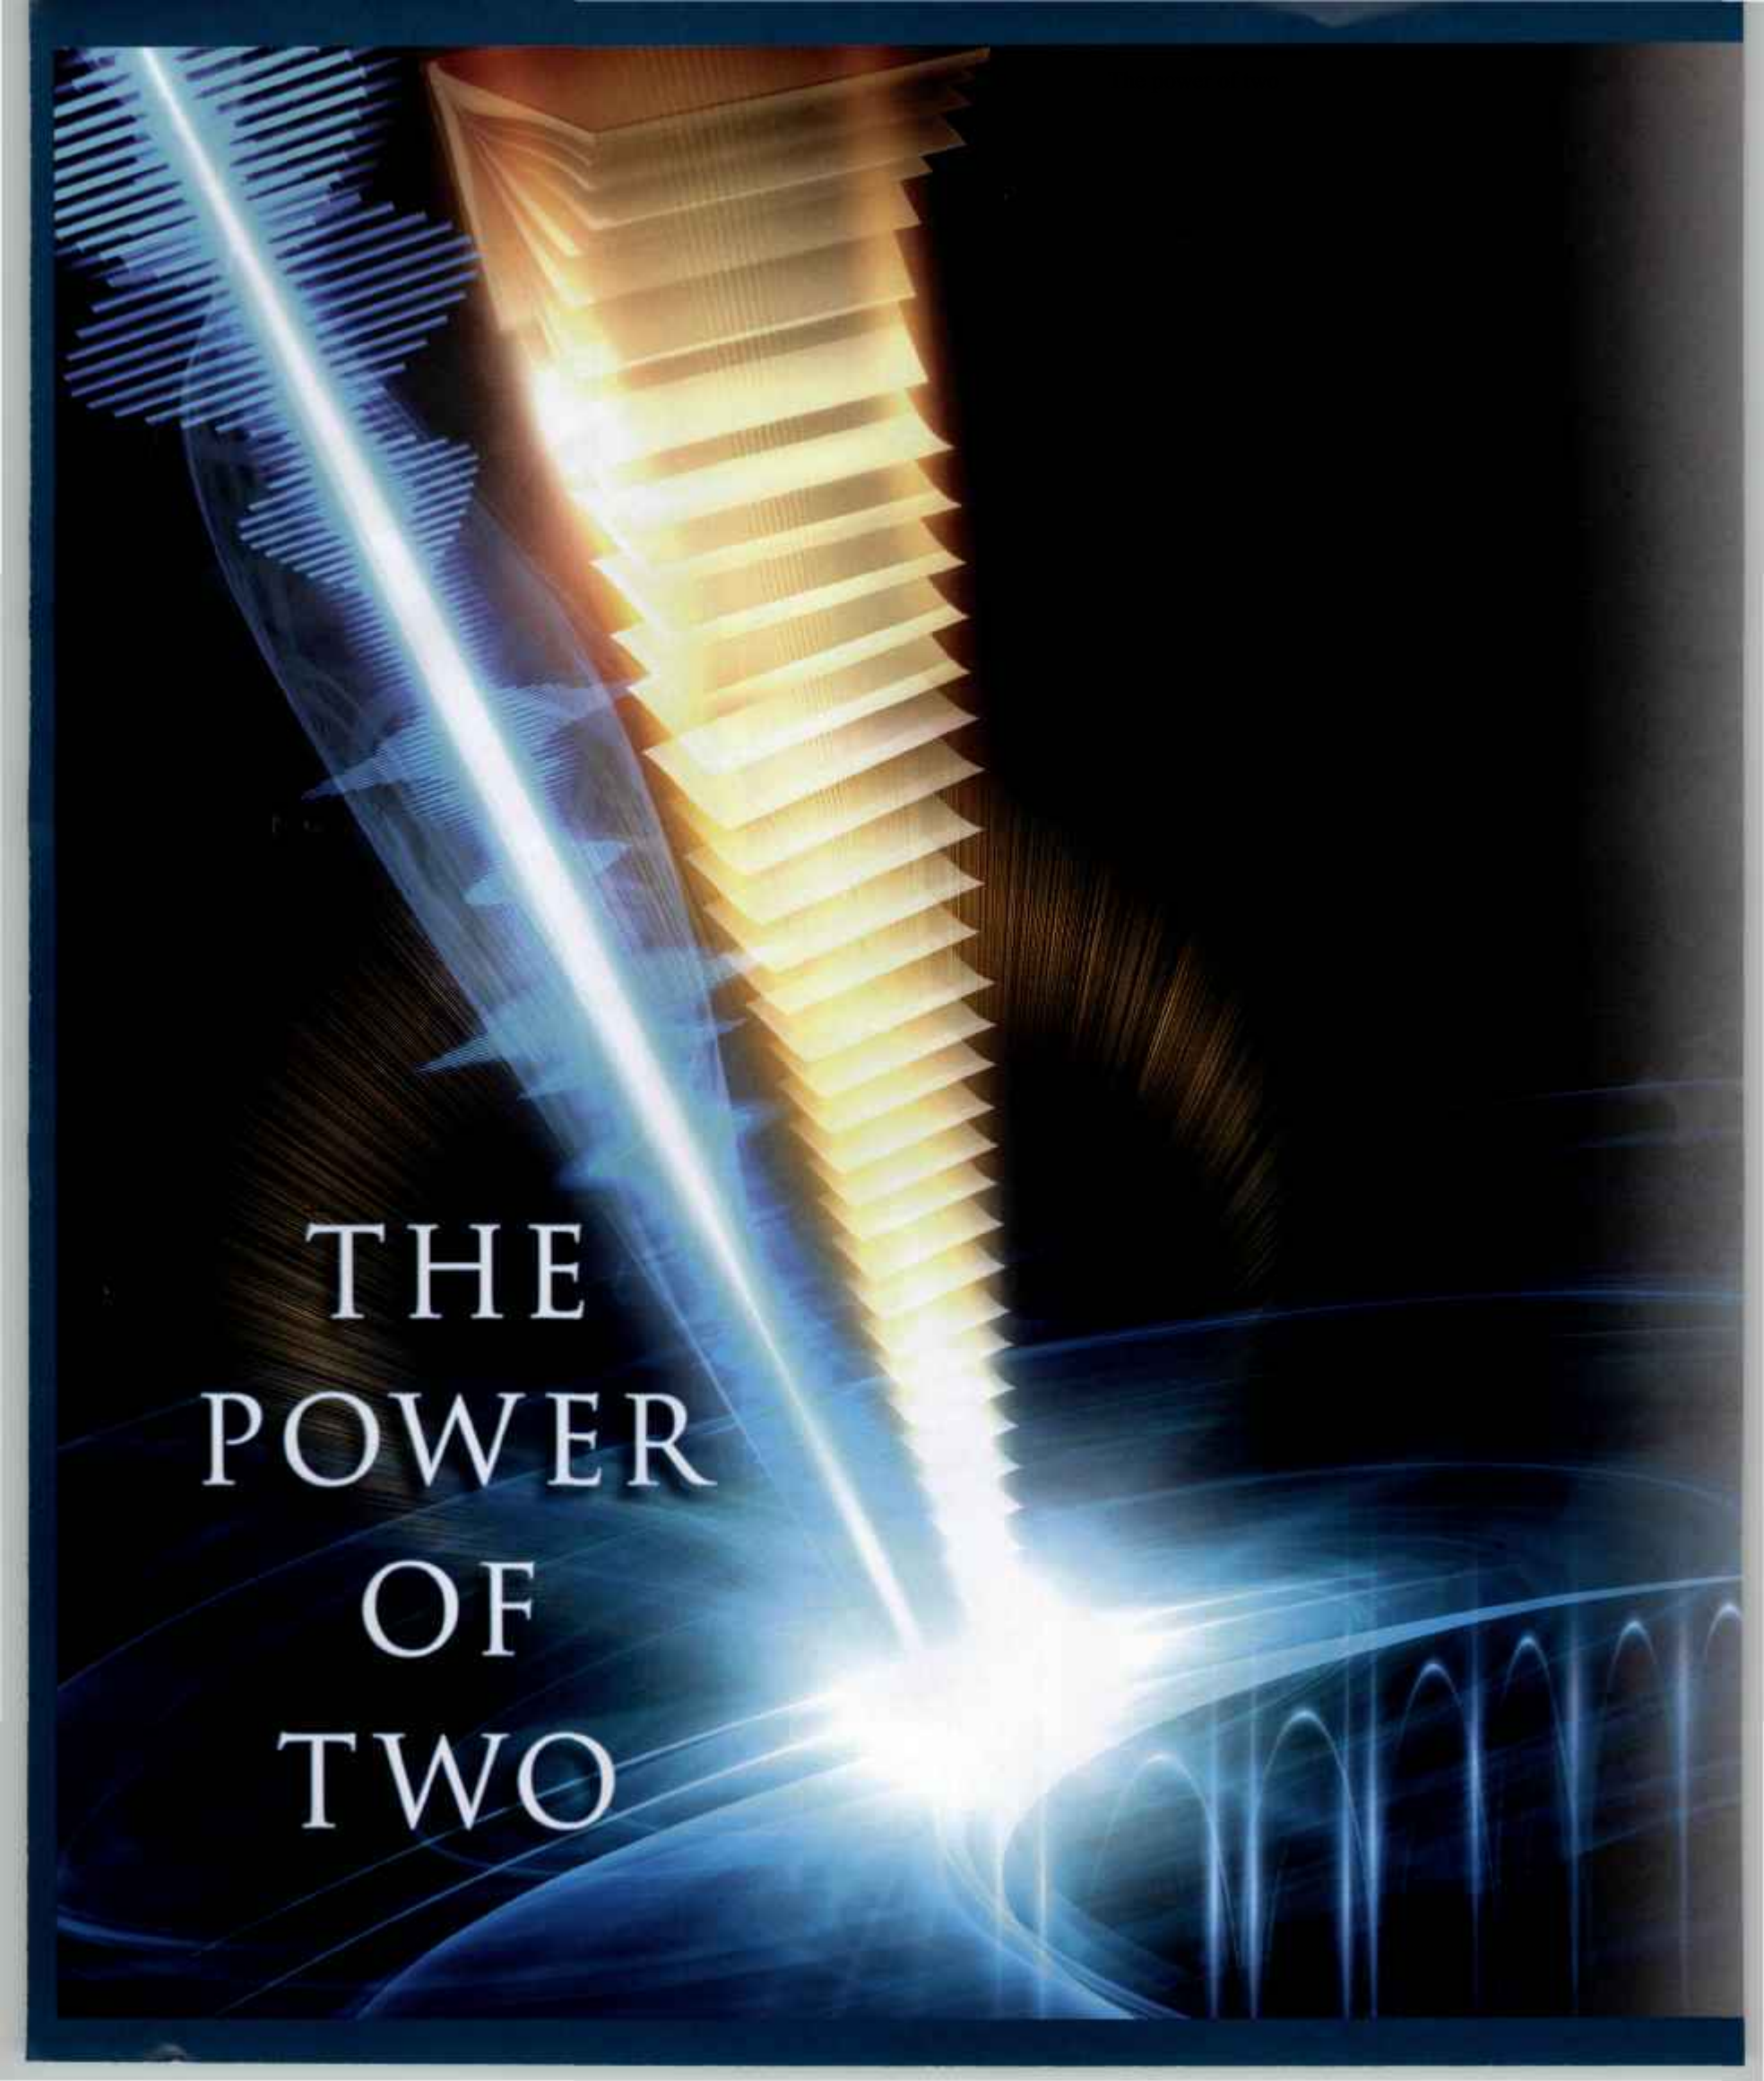

"I have never felt so much ARC and KRC for LRH and the Tech as I do now. These materials are what life is all about, and now that I KNOW them I can't imagine going through life without them! They are essential! I now feel thoroughly hatted as a Scientologist."

"I had studied about half of the books before— *not* in the correct sequence. I am *amazed* at the ease with which I went through them this time. It is just smooth studying. The correct sequence really makes the difference. Your understanding builds as you go, leading into the next level on the correct gradient. You KNOW you have the data!"

THE
POWER
OF
TWO

The Golden Age of Knowledge Basics Courses combine the power of the **LRH** books and lectures with full-blown study on a precision checksheet—all paralleling the **LRH** breakthroughs and discoveries.

Now, following a massive project to verify every single text against LRH's original manuscripts and dictation tapes, those books are now published in a form unlike any you have ever seen—a form that fulfills LRH's exact intentions for each work.

Ease of duplication is hundreds of percent greater. And when combined with the specific lectures for each book—all

studied in the chronological order in which LRH released them—one reaches a level of clarity and understanding far surpassing anything previously attainable.

LRH wanted all Scientologists to be able to know the fundamentals of Scientology to the core of their being. Your eternity depends on it.

That objective has now been achieved with the Golden Age of Knowledge Basics Courses.

Start the Golden Age of Knowledge Basics Courses today! Not only are you giving yourself a rock-solid education in the very foundations of Scientology, you are taking a giant step towards OT and Total *Freedom—for your eternity.*

The Extension Course

The next course is The Extension Course. This course is the minimum requirement for accreditation on Academy course checksheets.

LRH expressly designed The Extension Course to accelerate your speed and continued progress on the Route to Knowledge.

Suited for any schedule, any location, it's the course you're on when not on course. It's the next level down from the Golden Age of Knowledge Basics Books & Lectures Courses and the one that is an absolute bare-bones requirement.

Lesson by lesson, section by section, you are guided through the chronological developments and breakthroughs of Dianetics and Scientology by the Extension Course Director.

The courses contain the precision lessons to ensure you grasp every importance and strengthen your understanding of all basic laws, principles, axioms, maxims and phenomena—so you know them to your core and forever.

The Extension Course prepares you for any and all future training and auditing, and in themselves will dramatically better your progress in any step on The Bridge.

As an Extension Course graduate, you will be able to spend your valuable time in your org moving through your courses or auditing with utmost speed and certainty.

WHAT STUDENTS ARE SAYING

"The Extension Course is incredible. I'm not done yet, but my message is this: If you want to survive better, be in the future, make decisive decisions, be in control of your environment, move out of the physical universe and into the strata of a spiritual being—do The Extension Course. Trust me, you will go to heights

you never knew possible because this is where all your dreams, your postulates and goals come true!"

"It's hard to conceive the importance or the benefits of this study when you first begin.

And it's not even necessary to break it all down to talk about the scope of this. But having completed each one

/ have a full grasp of Scientology basics. And as far as application goes, there is no aspect of my life

I am not using my newfound knowledge in. In fact, I have

handled two major situations in my life with the knowledge I

learned on this course. This is Scientology. It is life.

Everyone needs the knowledge in these books."

S.J., Student

of these books I can say that the most important factor in all of this lies in the definitions of the subject. I have complete reality of that and I understand and can apply

the definitions that make up Scientology. Scientology is KNOWLEDGE. This course is what I have been searching for. Now I can use the data in life and I am living like I never lived before."

"I can say with total certainty that I am not the same person who began this course.

I am brand-new—with a fresh viewpoint. And that's a good thing because I needed to change. I knew that, but I didn't know how. On this course it just happened. I have a full grasp of Scientology basics. And as far as application goes, there is no aspect of my life I am not using my newfound knowledge in. In fact, I have handled two major situations in my life with the knowledge I learned on this course. This is Scientology. It is life. Everyone needs the knowledge in these books."

"This is a very amazing experience, it builds and grows and you grow with it. With *Dianetics* I understood the mechanics of the mind, how the reactive mind works, how to get rid of it and the vital necessity of doing so. With *Science of Survival* I began to understand others clearly and with that I saw that I was responsible for the people around me and how I could help them. Then, with *Advanced Procedure and Axioms* I duplicated the subject of responsibility and how to increase my own responsibility level. When it came to *Handbook for Preclears* I really saw the importance of the role of an auditor and how I could help make auditors very easily and disseminate broadly. With *History of Man* I understood my own history—many mysteries were solved. And when I got to *Scientology 8-8008* I realized that I had learned to play the game of life

at a much higher level. *The Creation of Human Ability*, *Dianetics 55!* and *The Fundamentals of Thought* provided the final touches on my basic education as a spiritual being. Life is simple—and a lot of fun. For the first time I really know what the game is. I know the rules. And I know how to win. Everyone needs to do this study."

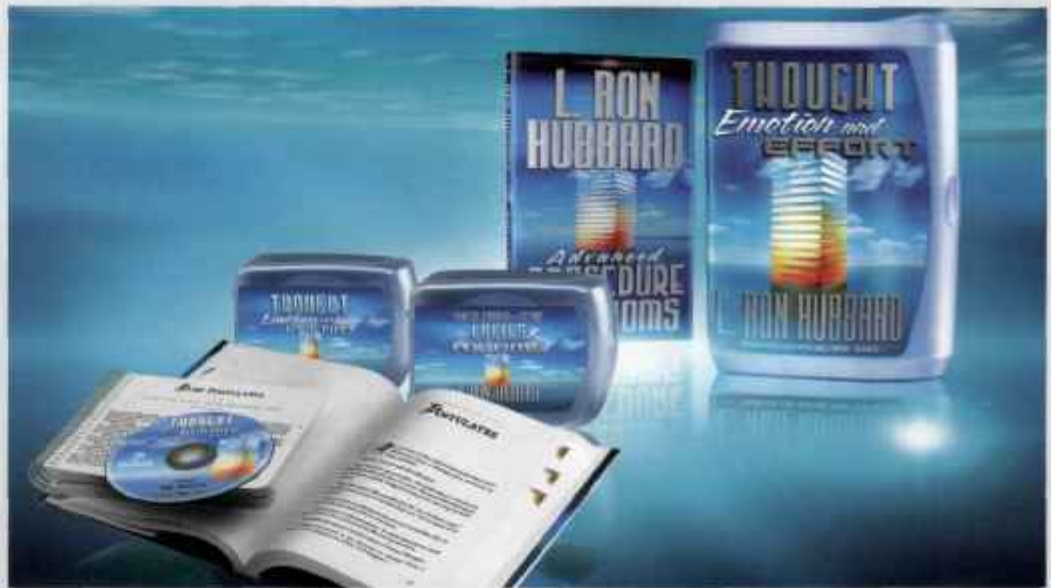

"This Basics study brought me to an understanding of life right here and now on planet Earth. I know what has happened to Wisdom and Religion, where they stand now and why. I know what happened to Science and the Humanities. I have real, workable solutions at my fingertips, answers I can use to effectively relieve the upsets and travails of ordinary daily living, putting me on top of it. This IS the technology of knowing. It spans the whole of life and now it's mine to apply from here on out."

"These books are literally changing my life. I learn at least one mind-boggling datum every few hours, and as a result I'm becoming more and more able—solving areas of my life I simply couldn't understand before. My attitude toward living is way better, because I am actually participating in life. Before enrolling, my life was not doing well. I had two small children and a marriage that was headed for divorce. Not now! Thanks to these books, my understanding of how life works, how communication flows and how personal relationships are a two-way street is high. My success level is best ever. My ability to confront life and handle it full on and effectively is at an all-time high. Do this course if you want to start living a successful life!"

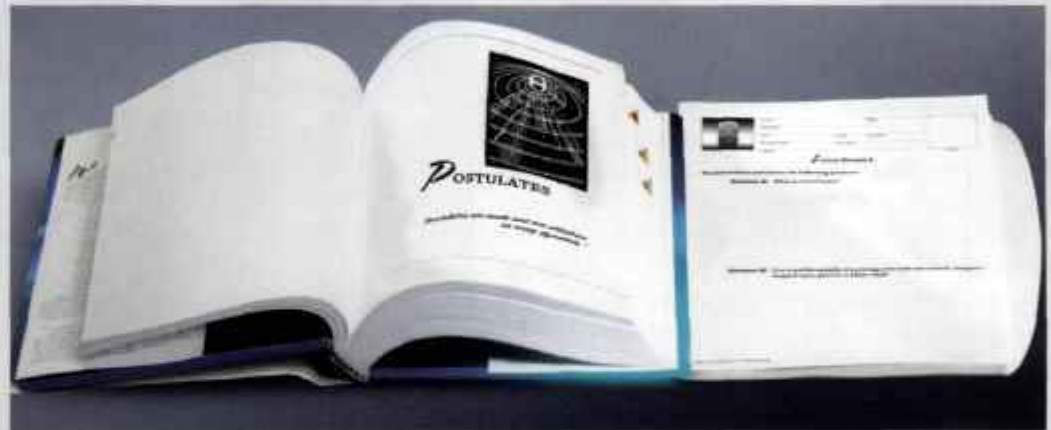

"This is what I have been searching for, for the longest time. Real answers. Simple ones, but true. As a result I have a far greater understanding of my environment, my friends and family, and most of all, myself. I am more stable than ever. My affinity for others has risen enormously because I understand them. If you understand a situation you can act, you can provide real help and bring about a change around you. It really is all about knowledge and I am gaining more and more of it by the day on this study."

"My life has changed—on all dynamics. It is going smoother and easier because these materials have put me at Cause. For the first time I really do know what Scientology is and what being a Scientologist means."

"Studying the books and lectures in the exact sequence LRH wrote or delivered them made a huge difference to my comprehension of the materials, it built and built as it went. He explains all the terms and concepts as he goes along and then keeps using them throughout so you just totally flow along with it. Everything fits perfectly together and you know exactly what he is talking about the whole time. This IS full conceptual understanding."

MAKE SURE YOU LISTEN TO THE LECTURES THAT ACCOMPANY THE BOOK. Listening to these lectures in combination with study of the books provides a depth of comprehension not otherwise possible.

THE EXTENSION COURSE consists of a series of lessons, each one crafted to make the data yours, with questions that make you think with the key principles, definitions and basic laws, chapter by chapter.

FIRST YOU STUDY A CHAPTER, THEN YOU DO THE LESSONS—while using the text as a guide. The course questions are oriented to the fundamentals—the most important datums, axioms, laws and rules, persuading you to think with and own the principles so you use them.

ONCE COMPLETE ON A LESSON, you mail it in to the Extension Course Director for grading.

THE EXTENSION COURSE DIRECTOR returns your graded lessons and moves you through the course with certainty. Each completed book earns you a certificate for that course of study.

Bringing The Basics to You

Every compact disc, book, course pack, everything in every language, are all produced in Sea Org facilities.

With the expansion of Scientology planetwide, it became imperative that our dissemination lines for books and materials expand commensurately. Some years ago the program was launched under the banner "Going Global." And when talking about the dissemination of the materials of Dianetics and Scientology in multiple languages world over, it presents a unique set of problems not typically encountered by garden-variety publishers who may publish a lot of books but they are all short-lived. Compare that to our situation: *every* book needed in *every* language and *none* of them ever going out of stock.

Add to the equation new countries and new languages where the cost of printing a relatively small number of books for new pioneer areas becomes entirely prohibitive. Finally, take into account the amount of randomness generated with printers when trying to keep stocked the entire library of Dianetics and Scientology materials in 16 languages, not to mention 50 languages.

The solution was to go in-house.

Thus, every compact disc, book, course pack—*everything* in every language—are *all* produced through our own facilities.

LRH LECTURES

It begins at Golden Era Productions where, several years ago, the Compact Disc Manufacturing Line was first established. Since then it has expanded manifold to accommodate every step of production, from the actual manufacture of the discs themselves to the printed label on the CDs.

Gold has produced more single titles than any other CD plant in the world. Meaning, no outside facilities are set up to handle a 3,000-lecture library in multiples of 16 languages.

Similarly, all of the transcripts, including glossaries and indexes—in fact, all printed matter found inside a CD package—are also all printed in-house. Further, it is all "on-demand," meaning that we can start printing anything within minutes of loading the computer file.

Moreover, Gold can print in any quantity needed. So while running mass production for English materials, we can just as easily do a very small quantity of 500 for a new area just beginning, and, it is the same cost per item regardless of quantity—a huge factor in disseminating to new pioneer countries.

ABOVE: The CD Manufacturing building at Golden Era Productions. All LRH lectures are produced at Gold, from CD manufacturing and replication (RIGHT), to the printing of transcripts and glossaries (BELOW).

RIGHT: The foiling and finishing line of the CD Manufacturing Line at Gold.

Today, Golden Era produces in excess of 300,000 compact discs a week to meet planetary demand. Thus, were one to travel to Taiwan or Moscow or Johannesburg, the CDs in the orgs will have been produced by Golden Era Productions.

LRH BOOKS

All publishing of LRH books for North, Central and South America is handled by Bridge Publications, Inc. in Los Angeles. They are now home to the largest in-house digital book printing facility in the world.

As a fully digital operation, completed typeset book files are simply downloaded to the printing machines, the specifications are automatically set and it is literally "hit the button and print."

"In-house" also means much more than the printing, as in everything through book binding, even the thumb tabs—hundreds upon hundreds of steps.

In terms of quality, the dustjackets serve as an example: each one laminated so that, should anything be spilled on the book, it can be wiped off with ease and cause no lasting damage to the book.

Then there is the matter of the book binding. There are companies that measure quality through a device that exerts pressure on a page and attempts to pull it out of the book. In testing the quality of our binding, the needle hit the pin—in other words, it was subjected to the maximum amount of force their machine could exert without budging. They quit doing the test.

What that means is that our books will last 50-100 years.

Further still is the matter of warehousing, and while we do produce "on-demand"—meaning when the orders come in—one must still have a quantity of stock on hand to make sure one can fill orders immediately. Because of the number of different items we produce, the warehouse is immense.

Outside of the Americas, all book production and distribution is handled at our New Era Publications plant in Copenhagen, Denmark. Their new facilities are an exact duplicate of our Bridge Publications plant in Los Angeles.

In terms of production capacity, both Bridge and New Era Publications are capable of producing a combined total of 60,000 hardback books per day and a yearly output of almost 11 million. Those figures are strictly for hardbacks and do not include paperbacks or course packs, which are also printed at their facilities.

And while the production of the Basics lectures in 15 languages comprised 5.5 million individual compact discs, the full lecture production capacity at Golden Era Productions is 15.5 million CDs per year.

As a final element in what it took to bring the Basics to you, all translations and foreign recordings are also done in-house—over one million hours of translations and another 216,000 hours in the recording booths. That's all not to mention such aspects as the compilation of the glossaries for both the books and the lectures, all told 2,000 Dianetics and Scientology technical terms and 22,000 more English words and phrases—all of them defined exactly *as they are used* in the LRH text.

All in all, production of the Basics represents 172,980 man-hours for the lectures, another 200,000-plus for the books, and when combined with all layout, typesetting, proofreading, translations and so on, it tops two million hours and almost 65 million printed pages of transcripts and books.

In terms of disseminating the legacy of LRH's tech, the launch of the second phase of the Golden Age of Knowledge has been the largest undertaking in our history.

This is only the beginning, and this release is but the firing pin enabling us to unleash all else in our arsenal.

As for why, it is the same answer:

These are the Basics.

They are basic to *everything*.

The Largest

Translations Project in Recorded History

In preparation for the release of LRH's basic books and lectures in 15 languages, a network of 84 staff and 928 translators was mobilized world over and central translations units were established for the ideal scene in every respect—all with the purpose of producing the highest quality of Source to speed planetary clearing.

The European Translations Unit, located in the Continental Liaison Office (CLO) EU in Copenhagen, Denmark, along with outlying units in liaison offices for Central and Eastern Europe and the Commonwealth of Independent States, handles all translations into Danish, Dutch, French, German, Greek, Hebrew, Hungarian, Italian, Norwegian, Portuguese, Russian, Spanish

and Swedish. The Asian Translations Unit, located in Continental Liaison Office ANZO, translates Japanese and Taiwanese, while the unit in Continental Liaison Office LATAM, in Mexico City, translates for Latin American Spanish.

More translations were done in the last two years than in the previous 20 years combined. In terms of sheer magnitude, each language of the Basics took an average of 95,000 hours, for a total of 1,425,000 hours—the largest translations project in recorded history.

The quality is unsurpassed—as expressed in the statements of those now receiving the full benefits of Source in their language.

FRENCH

"I started to read the books and listen to the lectures in English and then I had the opportunity to continue in my language which is French. I want to say that the translations were very well done and the speaker of the lectures is doing exactly as LRH did and I really got the data."

DUTCH

"For the first time I can understand everything. So much easier! I already finished *A New Slant on Life* in Dutch in no time. It is now really clear why Scientology is a new slant on life. Reading it was as if LRH spoke to me directly with the same ease as in his lectures. I noticed that the text in the Dutch just communicates and it is so, so much easier to take in the data. I know I'm on-Source! It is very easy, especially because of the incredible range of words in the glossary. Great!"

RUSSIAN

"My dream has been to be able to read the book and listen to the lectures about the *History of Man* and the genetic line but we never had the translations before. Now, I have the opportunity to study all the books and listen to the lectures in Russian and my dream has become a reality. I want to read everything in order and with the lectures! I tried before but failed. Now I can do that!"

ITALIAN

"In the past I would never read Dianetics because I thought it was too hard! After the event I could not wait to read all these 'new' books and so I began reading DMSMH. I am having lots of wins. This book flows really well and the glossary is awesome. Moreover, being Italian I can say the translations are really well done and save me a lot of time as I was previously comparing the English copy with the Italian copy to see what was really being said. I thank LRH for the data he is giving me, RTC and COB for their relentless procurement of pure Tech, just like LRH gave it."

GERMAN

"The German translations are really excellent and it is so much easier to grasp what LRH is talking about. It was really simple. The Basics books are clear and totally on-Source. They are really LRH and you can feel it! Epic-making! Now I am no longer afraid to study, now I have a chance to learn and apply the data. It's great and I am very thankful to COB for making this all possible."

JAPANESE

"I am totally impressed by the quality of the translation of these new materials. It is quite clear in concept and very smooth. It means a lot as it opens the door for Japanese people to learn LRH."

THE BOOK + THE LECTURES = FULL

The materials of Dianetics and Scientology comprise the largest body of information ever assembled on the mind, spirit and life, rigorously refined and codified by L. Ron Hubbard through five decades of research, investigation and development. The results of that work are contained in hundreds of books and more than 3,000 recorded lectures.

The books and lectures form the foundation upon which The Bridge to Freedom is built. They are presented in the sequence Ron wrote or delivered them. In many instances, Ron gave a series of lectures immediately following the release of a new book to provide further explanation and insight of these milestones. Through monumental restoration efforts, those lectures are now available.

"While Ron's books contain the summaries of breakthroughs and conclusions as they appeared in the developmental research track, his lectures provide the running day-to-day record of research and explain the thoughts, conclusions, tests and demonstrations that lay along that route. In that regard, they are the complete record of the entire research track, providing not only the most important breakthroughs in Man's history, but the *why* and *how* Ron arrived at them.

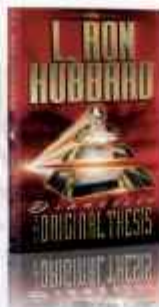

Not the least advantage of a chronological study of these books and lectures is the inclusion of words and terms which, when originally used, were defined by LRH with considerable exactitude. Far beyond a mere "definition," entire lectures are devoted to a full description of each new Dianetic or Scientology term—what made the breakthrough possible, its application in auditing as well as its application to life itself. As a result, one leaves behind no misunderstandings, obtains a full conceptual understanding of Dianetics and Scientology and grasps the subjects at a level not otherwise possible.

Through a sequential study, you can see how the subject progressed and recognize the highest levels of development. The books and lectures are shown where they fit within the developmental line. From there you can determine your *next* step or any earlier books and lectures you may have missed. You will then be able to fill in missing gaps, not only gaining knowledge of each breakthrough, but greater understanding of what you've already studied.

This is the path to knowing how to know, unlocking the gates to your future eternity. Follow it.

How AND WHY AUDITING WORKS

Ron's *first* description of Dianetics. Originally circulated in manuscript form, it was soon copied and passed from hand to hand. Ensuing word of mouth created such demand for more information, Ron concluded the only way to answer the inquiries was with a book. That book was *Dianetics: The Modern Science of Mental Health*, now the all-time self-help bestseller. Find out what started it all. For here is the bedrock foundation of Dianetic discoveries: the *Original Axioms*, the *Dynamic Principle of Existence*, the *Anatomy of the Analytical and Reactive Mind*, the *Dynamics*, the *Tone Scale*, the *Auditors Code* and the first description of a *Clear*. Even more than that, here are the primary laws describing *how* and *why* auditing works. It's only here in *Dianetics: The Original Thesis*.

THE ADVENTURE
BEHIND THE ADVENTURE

This is the story of *how* Ron discovered the reactive mind and developed the procedures to get rid of it. Originally written for a national magazine—published to coincide with the release of *Dianetics: The Modern Science of Mental Health*—it started a wildfire movement virtually overnight upon that book's publication. Here then are both the fundamentals of Dianetics as well as the only account of Ron's two-decade journey of discovery and how he applied a scientific methodology to the problems of the human mind. He wrote it so you would know. Hence, this book is a must for every Dianeticist and Scientologist.

THE BOLT FROM THE BLUE

Containing discoveries heralded as greater than the wheel or fire, *Dianetics* has remained a bestseller for more than 50 years. And with over 20 million copies in print, generating a movement that spans over 100 nations, it's indisputably the most widely read and influential book ever written about the human mind.

Immediately following the first publication of *Dianetics*, Ron began lecturing to thousands upon thousands in packed auditoriums across America. And now you can be there, by listening to these four lectures recorded at the time. Hear him describe the events that sparked his investigation and groundbreaking discoveries, and his personal demonstration of Dianetics auditing.

WHOLE TRACK

76 trillion years of glare fights, implants, between lives, exploding facsimiles, entities, blanketings, volcanoes and theta traps... REVEALED. With so much compelling information distilled into this book and lecture series, the whole track comes suddenly and sharply into focus. Not for the fainthearted, here is the bold, unvarnished truth of the past and how beings came to be "human." For here is *infinity to infinity: Technique 88*.

THE DISCOVERY AND INCREASE OF LIFE ENERGY

The *first* explanation of the electronics of human thought and the energy phenomena in any being. Discover how even physical universe laws of motion are mirrored in a being, not to mention the electronics of aberration. Here is the link between theta and MEST revealing what energy *is*, and how you *create* it. It was this breakthrough that revealed the subject of a *xhenris flows* and which, in turn, is applied in *every* auditing process today. In the book's title, "8-8" stands for *Infinity-Infinity*, and "0" represents the static, *theta*. Included are the *Wavelengths of Emotion*, *Aesthetics*, *Beauty and Ugliness*, *Inflow and Outflow* and the *Sub-zero Tone Scale*—applicable only to the thetan.

A 50,000-YEAR SEARCH

Here is the resume of Scientology—so embrace Ron designated it the *Book One of Scientology*. Then, to provide knowledge for its full application by advanced students of Scientology, he specially recorded twenty-one lectures—each a half-hour in length, and each providing a complete *mastery* of a new Scientology breakthrough and its use in every part of life. And it's all brought together with the *Code of a Scientologist* and the means of creating a new civilization.

SCIENTOLOGY APPLIED
TO THE WORKADAY WORLD

Having codified the entire subject of Scientology, Ron immediately set out to provide the *beginning* manual for its application by anyone. As he described it: life is composed of seven-tenths work, one-tenth familial, one-tenth political and one-tenth relaxation. Here, then, is Scientology applied to that seven-tenths of existence including the answers to *Exhaustion* and the *Secret of Efficiency*. Here, too, is the analysis of life itself—a game composed of exact rules. Know them and you succeed. *Problems of Work* contains technology no one can live without, and that can immediately be applied by both the Scientologist and those new to the subject.

CONCEPTUAL UNDERSTANDING

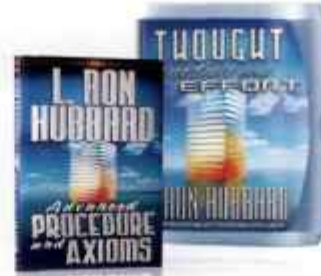

THETA + MEST = LIFE
(LIFE FORCE) (MATTER, ENERGY, SPACE & TIME)

Dianetics revealed the previously unknown mind that enslaves Man—the *Reactive Mind*—and the procedures to get rid of it. And what that, in turn, revealed was something far greater—*Life Force* itself. Here are the discoveries of how *theta* interacts with the physical universe of matter, energy, space and *time*—*MEST*. And what that provides is the route to ascend to higher states—something never envisioned in history. The book is written around the now legendary *Chart of Human Evaluation*, providing a complete description of the Tone Scale and the components of emotion—the “triangle” of Affinity, Reality and Communication. By knowing just one or two characteristics of a person, you can know the rest—their entire personality, conduct and character. Here, then, is not only the essential handbook for every auditor, but for use in life itself. And that’s why *Science of Survival* is the most useful book and lecture series you’ll ever own.

LEARN TO KNOW YOURSELF

Containing the most complete description of consciousness, *Self Analysis* takes you through your past, your potentials, your life. First, with a series of self-examinations and using a special version of the *Hubbard Chart of Human Evaluation*, you can plot yourself on the Tone Scale. Then, through these pages, Ron himself audits you with a series of light yet powerful processes, taking you on the greatest adventure of all—the adventure of self-discovery. You’ll soon meet the best friend you have—you!

ACHIEVING SELF-DETERMINISM

With new breakthroughs on the nature and anatomy of engrams comes the discovery of the being’s use of a *Service Facsimile*: a mechanism employed to explain away failures in life, but which then locks a person into detrimental patterns of behavior and further failure. Here, then, is *Advanced Procedure* and the means to rehabilitate *Self-determinism*.

IDEAL STATE OF BEING

Here is a self-processing book written for use by auditors and prelearners as a companion to *Advanced Procedure and Axioms*. Discover the *Chart of Attitudes*, containing the “buttons” which, when pressed, unlock any case. For here, too, is the discovery and description of *Life Continuum*—the means by which a being inherits and then begins living the lives of others. And all of it, as well as the means to return to one’s own life, are announced in the watershed lectures originally given to the Second Annual Conference of Dianetic Auditors.

“We’re dealing in essence with certainty. Therefore, we deal with a simple definition. Certainty is itself knowledge. Knowledge is certainty.” L. Ron Hubbard

POTENTIALS OF THETA
8-8008:

THE ATTAINMENT OF INFINITY (8)
BY THE REDUCTION OF THE APPARENT INFINITY (8)
OF THE MEST UNIVERSE TO ZERO (0)
AND THE INCREASE OF THE APPARENT ZERO (0)
OF ONE’S OWN UNIVERSE TO INFINITY (8).

Scientology 8-8008 is not just another number, but serves to fix into the mind of the individual a route by which he can rehabilitate himself, his ethics and his goals. Ron guides you through that route in the lectures of the legendary *Philadelphia Doctorate Course* and *The Factors*. What awaits is the knowledge of universal truth unlocking the riddle of creation itself.

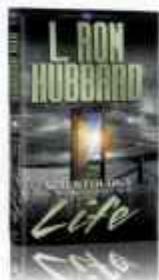

EXTERIOR OF ABILITY

From three feet behind your head to a Grand Tour of the Universe, this Handbook for Scientologists and watershed lecture series contain the discoveries *culminating* twelve months of groundbreaking research. This is the panoramic view of Scientology complete—from its basic Codes to the Scientology Axioms, and from Considerations and Mechanics to the famed Exteriorization Processes of Route 1 and Route 2—here is the ultimate summary of *Scientology itself*, its religious heritage and native state ability ...as a thetan exterior.

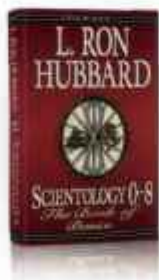

THE MAGIC OF
THE COMMUNICATION CYCLE

The Ancients dreamed of a “Universal Solvent” to dissolve any Problem, Barrier or Trap. You’ve got an Endless Supply. Discover the *Complete Manual of Human Communication* and the milestone *Unification Congress* announcing its watershed breakthroughs. For here is the key to success in all human endeavor and the fundamental component to auditing success. More than that, here are the lectures where Ron unifies the subjects of Dianetics and Scientology into a complete whole, opening the door to all we have today.

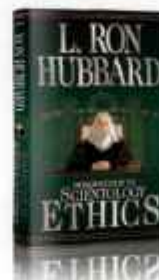

TIMELESS ANSWERS
TRANSCENDING LIFE ITSELF

Scientology essentials for every aspect of life. Basic answers that put you in charge of your existence, truths to consult again and again: *Is it Possible to Be Happy?*, *Two Rules for Happy Living*, *Personal Integrity*, *The Anti-Social Personality* and many more. In every part of this book you will find Scientology truths that describe conditions in your life and furnish exact ways to improve them. *Scientology: A New Slant on Life* contains essential knowledge for every Scientologist and a perfect introduction for anyone new to the subject.

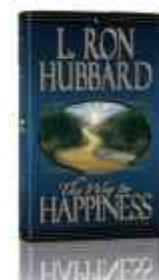

AXIOMS, CODES
AND SCALES

The companion to *all* Ron’s books, lectures and materials. This is *the* Book of Basics, containing indispensable data you will refer to constantly: the *Axioms of Dianetics and Scientology*; *The Factors*; a full compilation of all *Scales*—more than 150 in all; listings of the *Perceptics* and *Awareness Levels*; all *Codes* and *Creeds* and much more. The senior laws of existence are condensed into this single volume, distilled from more than 20,000 pages of writings, 3,000 lectures and scores of books.

THE TECHNOLOGY
OF OPTIMUM SURVIVAL

A new hope for Man arises with the first workable technology of ethics—technology to help an individual pull himself out of the downward skid of life and to a higher plateau of survival. This is the comprehensive handbook providing the crucial fundamentals: *Basics of Ethics & Justice*; *Honesty*; *Conditions of Existence*; *Condition Formulas* from Confusion to Power; the *Basics of Suppression* and its handling; as well as *Justice Procedures* and their use in Scientology Churches. Here, then, is the technology to overcome any barriers in life and in one’s personal journey up The Bridge to Total Freedom.

THE WAY TO HAPPINESS

True joy and happiness are valuable. If one does not survive, no joy and no happiness are obtainable. Trying to survive in a chaotic, dishonest and generally immoral society is difficult. Any individual or group seeks to obtain from life what pleasure and freedom from pain that they can. Your own survival can be threatened by the bad actions of others around you. Your own happiness can be turned to tragedy and sorrow by the dishonesty and misconduct of others. I am sure you can think of instances of this actually happening. Such wrongs reduce one’s survival and impair one’s happiness. You are important to other people. You are listened to. You can influence others. The happiness or unhappiness of others you could name is important to you. Without too much trouble, using this book, you can help them survive and lead happier lives. While no one can guarantee that anyone else can be happy, their chances of survival and happiness can be improved. And with theirs, yours will be. *It is in your power to point the way to a less dangerous and happier life.*

IAS

Global Salvage

The

Summit View

During the OT Summit, Chairman of the Board RTC presented the embracive overview of our global salvage campaigns launched at the October anniversary of the International Association of Scientologists, and their ongoing impact and results.

THE INTERNATIONAL ASSOCIATION OF SCIENTOLOGISTS NOW SPONSORS HUMANITARIAN INITIATIVES ACROSS 157 NATIONS, including human rights and social salvage programs in 48 high-probability flash points from Uganda, Rwanda and Liberia along the African poverty belt, to Iraq, Iran and Palestine across the Jihad war zones and in both mainland China and Cuba.

Then again, it is the IAS that allows us to mobilize at a moment's notice and reach disaster sites in places as far afield as the New Georgia Islands in the mid-Pacific and the Congolese city of Goma.

Moreover, it is the IAS that enables us to directly impact on at least a sixth of the world's population. That does not mean merely in terms of people reading or hearing about us. It means they're alive when they might otherwise be dead, they're free when they would otherwise be enslaved, their kids aren't on drugs when they would otherwise be hooked, and their churches, synagogues and mosques are still standing.

While even more than all that, they've got hope.

Volunteer Ministers: Something *Can* Be Done About It

While our Volunteer Minister Continental Cavalcades pitch tents in major metropolitan zones, and inter-continental Goodwill Tours pound stakes ever farther afield, our Extreme Pioneer Cavalcades venture all but off the map entirely—the Amazon, Central Africa and Australia's aboriginal territory.

But put aside the scheduled stops on our many-varied VM tours, and there is also what they're most known for: Anytime, anywhere; in the worst of times, in the worst of places.

And such is the continuing story of the year.

INDIA

In the wake of the July 2006 terrorist bombings, the New Delhi VM Goodwill Tour dispatched a training unit to deliver disaster relief seminars to the National Fire Department and five police battalions.

With our VMs operating in a terrorist strike zone, it was inevitable we would be working with the Indian Border Security Forces, who in turn implemented a program to train their men in Scientology communication skills, the basics of organizing, assists, the cause of suppression and solutions for a dangerous environment—all of which they now call "Scientology Disaster Specialist Training."

India's emergency network wanted every citizen to know that they now have 200 Scientology Disaster Management Specialists. Hence the Indian newspaper accounts with headlines such as, "Scientology Disaster Response Embraced by Firefighters," "Scientology VM Experts Reach City Shores" and "Scientology Experts in Civil Defense" letting India know that something *can* be done about it.

PHILIPPINES

Two high intensity typhoons hit the islands last November. By mid-month, three Australian VM teams were on site to train teams for delivery of Scientology and Dianetics

assists—or what provincial councils were soon calling the "Trauma Assist Workshops." VM seminars rolled out to 10 regional Emergency Offices, including the Governor's Office and the Provincial Disaster Center, the whole of the First Tactical Operations wing of the Philippines Air Force and the Philippines National Police. As of the OT Summit, a full 1,600 VM Tech-trained personnel were providing assists to more than 18,000 Philippine citizens.

SOLOMON ISLANDS

An 8.1 earthquake west of the far Pacific archipelago triggered the 16-foot tsunami that hit the Gizo tourist resort and swept the shores clean of 250 structures. Just 72 hours later, the first VM teams arrived, followed by newscasts reporting joint US Navy-VM operations to airlift victims from a stricken freighter.

UNITED STATES

No one had ever seen a tornado like it—winds clocked in at 200-plus miles an hour, flattening the rural town of Greensburg, Kansas, in just over 12 minutes. VM response vans were immediately en route. Top priority for the stricken town was ice, hence VMs ran distribution for some 40,000 pounds of it. Then with Kansas native Kirstie Alley on site, it was next food and clothing. As for what followed, it was as a Red Cross representative said: "No one deals with trauma except you guys." And so it was that more than 2,500 Greensburg citizens filed in for assists and Book One sessions over a three-day period.

AFRICA

When torrential rains and floods in Mozambique sent 290,000 literally heading for the hills, our African Volunteer Minister Cavalcade responded with a nine-man emergency team. They worked relief and logistics with both UNICEF and Mozambique military and trained teams in core tech for handling disasters. Those flood plains now stand with a 70-man LRH Assist Tech Unit.

EUROPE

Two Volunteer Minister teams from Manchester and Sunderland mobilized to the site of UK's Cumbria train derailment. Met by officers of the Transport Police with whom they had worked in the aftermath of the London terrorist bombing, the first words of greeting were simply, "Thank God you're here." The VMs proceeded to work the logistics lines, all as reported to UK citizens through the pages of the *Westmoreland Gazette* and *The Evening Mail*.

TALLY

In the worst of times and places, 180,331 people were shown that Something *Can* Be Done About It. While for the rest of the world, yellow pins on the VM map dot 269 sites below Nome, Alaska, in the western US, another 300 cities, towns and villages across the rest of North and South America, 100 more between Africa and ANZO, including the island of Kinmen off Mainland China, more still in London, Paris, Rome, Berlin, Lisbon and Genoa, while east of the Danube it's Warsaw, Bucharest and another 29 sites across the Balkans and Russia.

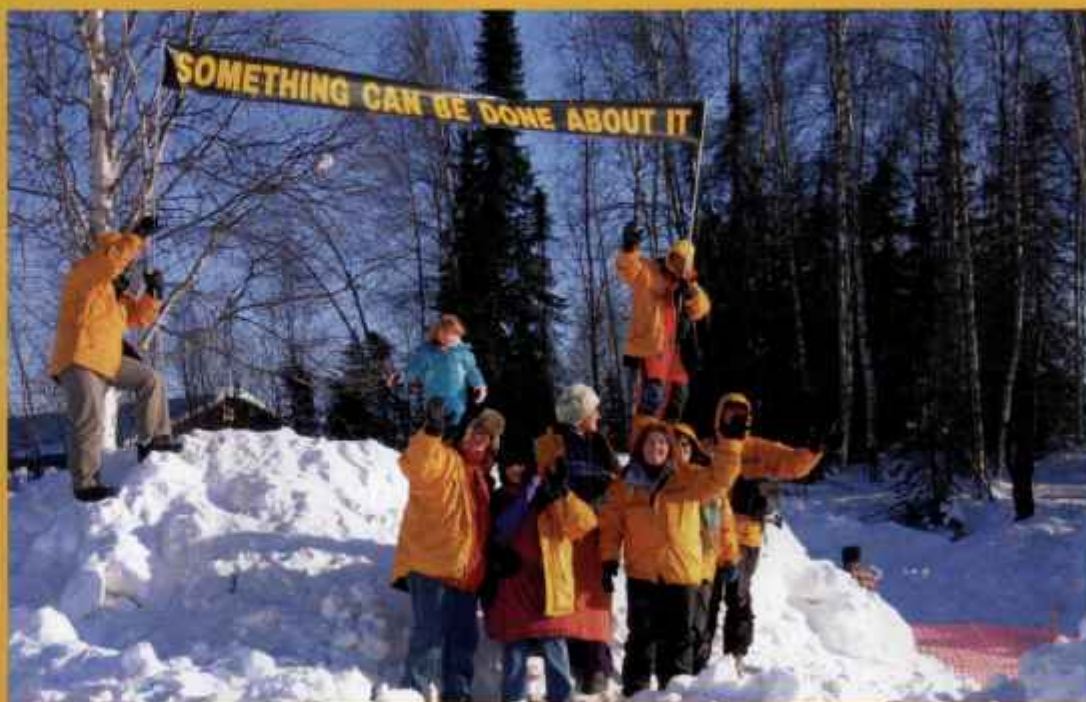

In order to track the VMs for the year, you'd have to go more than 52,000 miles, raising tents across 116 nations—because that's what it took our Volunteer Ministers to help 2,557,408 people in the course of the year.

GOODWILL TOUR VMS: Out on the rim with the 17th Botswana Armored Division, delivering seminars on ARC and Public Relations to cool tribal disputes. Seen here after a Communication Workshop. Commanders want a permanent VM field installation for what they call "Scientology Life Skills."

IAS INTERIM REPORT
*Citizens Commission on
Human Rights*

TORTURE & DEATH SOLD AS

The Global *The Global* Obliteration of *of* Psychiatry

Basic on the planetary engram chain is psychiatry. To terminate the problem once and for all, last year saw the launch of Psychiatry: Global Obliteration, our multi-phased, multi-media campaign.

Citizens Commission on Human Rights International in Los Angeles is Campaign Headquarters at the now-famed Industry of Death Museum. From here came our traveling exhibits and "Industry of Death" documentary on DVD, all continuing to fuel public outrage. For example, among classes from 48 colleges now regularly taking the museum tour, we are getting the facts across to health services students who will one day work the billing lines between insurance providers and health care practitioners, while visitors from every walk of life are joining the CCHR firing lines in the here and now.

TRAVELING EXHIBITS

Shortly after campaign launch in October, CCHR launched exhibits to hit 45 cities in 12 nations. Amongst 42,000 visitors to date was a former pharmaceutical

executive, since spilling the beans on company policy to sell high-risk drugs to Third World nations. The reasoning? "Impoverished people are a lot less likely to sue for adverse reactions causing permanent disability or death."

While for total interim figures on the traveling exhibits since last October: With 260,000 DVDs on screens of legislators, governors, mayors and attorney generals, there has been a fascinating plot twist. No, Big Pharma is not yet taking much heat for testing on Third World populations. But they are getting it from the rest of the world: more than 28,000 civil suits for adverse reactions, including suits from State Attorney Generals in Mississippi, Montana, New Mexico, Texas, Pennsylvania, West Virginia and Alaska. The two billion it already cost them is really just a drop in the bucket, because, with 65 billion in lost market shares, their own stockholders are now suing. Psych pharmaceuticals are no longer just the largest source of psychiatric revenue, they are also now taking more fire in the courts than any other industry on Earth.

TRACKING CRIME

From the reports filtering in through the museum, the traveling exhibits and documentary viewers, Central Headquarters spreadsheets out and forwards names, locations and suspected crimes of known psych offenders to appropriate prosecutors. Beyond "the usual," the recent psych crime list includes inciting racial hatred and spying for Cuban intelligence. CCHR was also tracking three accessories to murder, four statutory rapists, seventeen controlled substance act violators—six with intent to traffic—and at least one case of gross public indecency.

As of the OT Summit, better than 200 psychs are behind bars, pending trial, awaiting sentencing or picking up litter along public highways in community service programs.

"BILLING BIBLE" SMITTEN

Anyone who tours the Museum or exhibits or watches the documentary knows that somewhere at the bottom of all psych fraud and crime is the Diagnostic and Statistical Manual for Mental Disorders—the veritable "bible" of all psych diagnosis and drug sales.

Starting October, BBC was reporting "Scientific Validity of Psychiatric Diagnosis in Doubt," *The New York Times* was reporting the drug industry accused of "disease-mongering and widening definitions to sweep up more patients," and *USA Today* that "The majority of those who created the billing bible have undisclosed financial links to drug maker companies."

JUDGMENT DAY IMMINENT

Add thirteen new national regulatory warnings on psych drugs, including a Canadian Public Advisory notice on the whole ADHD lineup: as potential killers, plus three Australian Public Health Advisories on the same ADHD product line, four FDA hits on psych market leaders, and a new Black Box Warning on antidepressants.

And with headlines from the *Chicago Tribune* to *The Los Angeles Times* and newscasts on ABC, CBS, NBC, CNN and Fox—more people were tuning in to anti-psych newscasts than "48 Hours," "Lost" and "The Sopranos" combined—all in all, as of the OT Summit, psychs were stripped bare before 425 million.

FACING PAGE, TOP: The arsenal of psych destruction tools—the "Psychiatry: An Industry of Death" Museum at CCHR Headquarters in Los Angeles, BOTTOM: at the Death Museum learning the truth behind psychiatric racism, THIS PAGE: Traveling exhibits are fast swelling the ranks of vocal, active psychbusters around the world, including (CLOCKWISE FROM TOP) Munich, Germany; Atlanta, Georgia; Torino, Italy; Miami, Florida.

Operation: *Drug-Free Earth*

Drugs are a 400 billion dollar a year industry and, factoring in legal drugs, a way of life for a full five percent of the world's population.

Operation Drug-Free Earth hits the whole spectrum, embracing the Drug-Free Marshals for Youth and Say No to Drugs, Say Yes to Life for all ages.

The key to the campaign is our *Truth About Drugs* booklets, being used across five continents. Funneled through community groups, distribution then rolls up to umbrella national infrastructures, lowering consumption rates throughout entire population pools. Now the largest anti-drug campaign on the planet, highlights of the year are as follows:

NORTH AMERICA

Five to thirteen-year-olds are signed on as Drug-Free Marshals across North America. The kids are behind it, because they get official badges and police authorization to exert peer pressure. City and state officials are also behind it, such as in Los Angeles—because with younger brothers and sisters pressuring older siblings, LA drug-related violence just dropped 13 percent.

Canada's Drug-Free chapter is now nationally channeled through Canadian Parliament. From Toronto, Drug-Free Marshals distributed 21,000 booklets provincewide

and signed aboard another 8,000 students. Canada's Center for Addiction reported a regional usage drop over 18 months that almost exactly correlates: 29,000 booklets out, 28,657 kids drug-free.

Work the same formula across the rest of North America in cities from Vancouver, Denver and Portland to Washington DC, Buffalo and Tampa, then cross-correlate National Institute of Drug Abuse estimates with "Say No to Drugs" outflow across 52 high-usage cities, and there is no other way to explain the fact that North American teen consumption is now lowest in a decade.

TAIWAN

Truth About Drugs booklets first hit Taiwan in bulk in 2006 about 18 months ago. Immediately thereafter, usage rates were commensurately dropping 20 to 40 percent in the Class A Hard Drug categories. While the Department of Education already sponsors our booklets, more than a few heavy hitters have since stepped to the plate—most recently Chien-Ming Wong, top Taiwan export as pitcher for the New York Yankees, donating profits from his limited edition clothing line to the Say No campaign.

AUSTRALIA

Australia had the highest teen intake of drugs in the world—before our *Truth About Drugs* volunteers stepped up distribution to 330,000 booklets. It worked, and the news went fully national. As of the OT Summit, *Truth About Drugs* booklets track with a commensurate drop in Australian teen usage 30 percent across the boards.

AFRICA

Say No to Drugs has brought the *Truth About Drugs* to over a million target teens in coordination with African crime prevention units. As of the OT Summit, methamphetamine abuse has been going down in precincts as much as 30 percent or more.

EUROPE

Across Europe, a million signed drug-free pledges in Britain and five associations of Say No to Drugs extended from our Ideal Berlin Org, hitting 100,000 kids since October. Sister associations in Spain and Italy distributed booklets across their zones while a Say No to Drugs soccer team played at the San Siro stadium in Milano. Swiss cross-country cyclists distributed another million booklets and a French Say No to Drugs DVD aired on 20 regional stations to flank another 92,000 booklets. Hungary's anti-drug marathon drew corporate sponsors including Ford, Xerox, Nike, Hewlett Packard, Panasonic, Planet Sport and Chevrolet—all supporting distribution across 200 communities. Roll it out across the continent where our campaign has been running longer than anywhere on the planet, and it is now a 32.6 percent decline in European teen use wherever we Say No to Drugs and Yes to Life.

For (he bottom line: With the world's largest anti-drug campaign running in 58 nations, we have now prevented or stopped 3,761,000 people from destroying their lives with drugs.

FACING PAGE, TOP: Students at Nan-Zi Seniors High School, Taiwan, commit to drug-free living at a drug education lecture, BOTTOM: Royal Canadian Mounted Police on board the Drug-Free Marshals campaign in Canada, THIS PAGE, TOP: Anti-drug concert in Pyrgo Priory, England, with the Jive Aces, CLOCKWISE FROM ABOVE: Drug-free Marshals lead anti-drug initiatives in USA; teachers in Yogyakarta, Indonesia, prepare to lecture students with *Truth About Drugs* booklets; campaign draws support from Los Angeles county and city officials; proceeds from sales of special clothing line of New York Yankees pitcher Chien-Ming Wong go to anti-drug campaign in Taiwan; entire towns join anti-drug marathon in Hungary.

Protecting and Restoring Human Rights

All 30 articles of the Universal Declaration of Human Rights appear on our human rights Public Service Announcements that play on TV and are also now broadly available on DVD. Designed to raise awareness and generate a popular groundswell, we follow up by encouraging governments to deliver the force of law to the Declaration and mandate human rights education under the banner of "Making Human Rights a Global Reality." The Youth for Human Rights World Tour and our strategic operations in violation hot zones have played out as follows during the year:

INDONESIA

A first contact point was the Human Rights Minister of Indonesia, who opened the cell doors to Jakarta's youth detention center. And while they may have had some problems with over-zealous prison guards, they're cleaning up their act and joining in the campaign.

AUSTRALIA

To help stem what theorists call an "inevitable" race war, a New South Wales member of Parliament convened the first Youth For Human Rights Summit in the state legislature on national Harmony Day, while the city of Sydney lined the main street with banners carrying a single statement: "Human Rights must be made a fact, not an idealistic dream."

AFRICA

In the Congo, genus of the term "blood diamond," we are working with human rights leaders to stop the diamond gangs before it becomes a "diamond blood bath." While

as for North Africa, it has a reputation as the dark side of the moon where human rights are concerned, except for Morocco, due to her leading human rights advocate of law—now advocating our human rights education lineup.

On Africa's western coast, our education program is now running through Ghana and Liberia, and in South Africa, it's saturating the population—including a national panel on South African Broadcasting.

MEXICO

International Human Rights Organizations report that Mexican border states are seriously lacking a human rights agenda. As part of its reply, Mexico's Human Rights Commission contracted with Youth for Human Rights International to implement our human rights education program. The mandate required signatures and participation from every Mexican state, and with those governor's signatures in hand, school seminars are now getting underway in 24 states.

AROUND THE WORLD

Our campaign is rolling out across the world from governments to the grass roots, the PSAs in the lead, generating the popular groundswell.

In Asia, long-distance Taipei bus lines are playing the whole PSA lineup. In Russia, Moscow theaters are also now screening our PSAs, while as for the Ukraine, they consider our PSAs are *their* VSAs, hence the screens in McDonald franchises in Kiev. In Europe, all 30 PSAs screened for 130 members of the United Nations High Commission in Geneva. While in Milano, they played on a loop for nine days at an international festival. In Paris they play at art house cinemas and Blockbuster chains on the Champs-Élysées, and on French disco screens in Nice.

In North America it was every 30 seconds on 400 pan-Canadian Galaxy screens, and a feature topic on ultra-hip cable shows in Boston—all while in Nevada it's now a statewide Parent Teacher Association-School Board sponsorship to 400,000 kids as an official educational tool of the state.

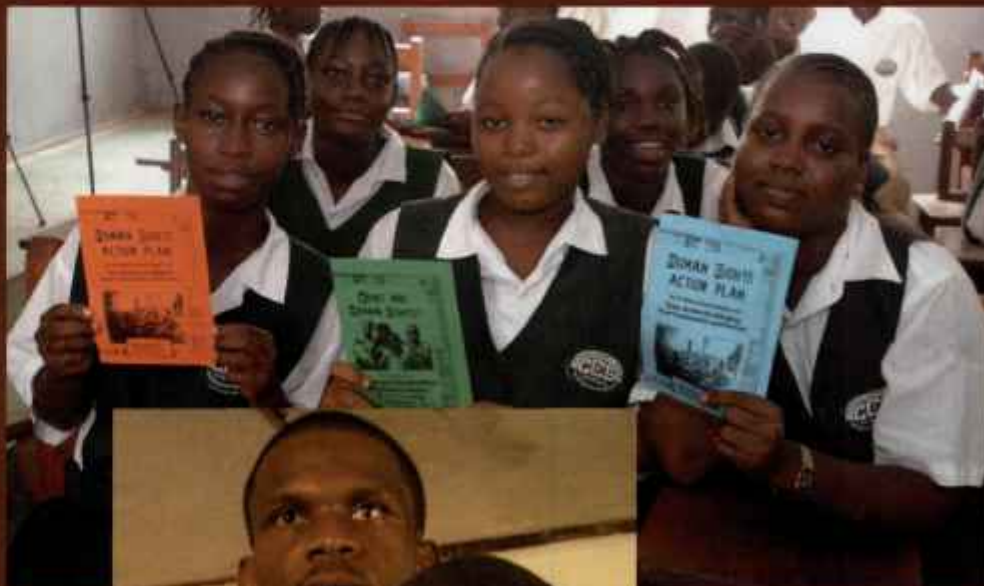

ABC, NBC, CBS and Fox are all airing our PSAs on their affiliates; elsewhere they are playing across the 50 United States on local TV stations in Washington, Boston, Alaska and Hawaii and internationally on CNN International, Fuji TV Tokyo, Mainland TV New Zealand, Nepali TV India, Magic TV Italy and across 10 African nations on MNET

Yet there is one other way we have gotten our message across. If you want broad appeal with youth, you cannot do better than sports. And with American youth, that is spelled "soccer." Major League Soccer, or MLS, is engaged in community outreach initiatives. In this instance they call it "MLS W.O.R.K.S.," an acronym for Wellness, Opportunity, Respect, Kids and Support of human rights and diversity.

In searching for programs to launch their new initiative, the Youth for Human Rights campaign fell into their lap. And they did not just adopt it, they made it their own, nominating two of the PSAs as campaign spearheads while nominating 21 widely known players to be part of those ads with personal endorsements included in the PSAs themselves. All of which is to say, our human rights PSAs now play during every Major League Soccer game this season, on ABC, ESPN, Fox broadcasts and all other regional stations, all with the titles of celebrated players like Landon Donovan and Freddie Adu giving their personal on-screen endorsements.

TALLY

As of the OT Summit we are joined by 16,800 government agencies, officials, legislators and human rights leaders in 81 nations, while our PSAs have now aired on 3,000 stations to 380,000,000 people, all to make human rights a *global* reality.

IAS INTERIM REPORT
The Way to Happiness

Operation: *Planetary Calm*

Operation Planetary Calm

TOP: Lebanese school children study *The Way to Happiness* in Arabic. ABOVE: Precept #4 of *The Way to Happiness* Public Service Announcements, playing at the Father's Day baseball game in Dodger Stadium, Los Angeles.

Beyond all campaigns thus far considered, there is yet one that, in and of itself, forms a bridge between all races, all cultures, all creeds, namely, *The Way to Happiness*.

With absolutely no other tech, *The Way to Happiness*, all by itself, has the power to uplift this entire culture and create a new tomorrow. It is like a magically encrypted formula. And however seemingly simple, the power is immense. Our present campaign calls for a two-tiered global rollout of televised Public Service Announcements illustrating the precepts, while internet contact and distribution fuel a grass-roots movement. We then initiate mailing campaigns to agencies, which make booklets of their own, and thereby seed whole communities.

We call it Operation Planetary Calm, and following is a little of why it is our next strategic step:

COLOMBIA

Where distribution is proportionate to crime levels, results prove startling. By way of example: With 74,000 booklets channeled into key zones of the Colombian drug war, national homicide rates dropped a full 10 percent. While across a heavily saturated Bogotá, where distribution ran all the way from primary schools to Harley Davidson dealerships, homicide fell to the lowest point in two decades.

PAKISTAN

Working roughly the same equation is a Pakistan relief organization called the Abdul Sattar Edhi Foundation. It holds a Guinness Book of Records award for the

largest blood drive in history, and its founder is now on the short list for a Nobel Peace Prize. But here is one he can put on the shelf right now: The Foundation funnels 87,000 booklets through Kashmir, violent crime takes a nosedive. And those making pilgrimages, which amounts to a Muslim amends project, swells to the highest point in years. Moreover, *The Way to Happiness* is not just in the streets of places like Karachi, it is also in national Pakistani ministries.

LEBANON

At the close of 2006 a notoriously stringent Lebanese Directorate for State Security approved *The Way to Happiness* for general distribution. It was a first in Lebanese history, because anything smacking of a moral code must be acceptable to both the 60 percent Muslim population and 40 percent Christian. But the booklet proved exactly that, which brings us to another first: Between neighborhood shops and the big Virgin chains, 50 percent of all Lebanese bookstores now stock *The Way to Happiness*.

SPREADING THE CALM

Everywhere else across 134 nations, *The Way to Happiness* also in mainline industrial centers, including the hottest Formula One boats in Italy, Coca Cola of Panama and McDonalds in Connecticut. While for the gift to Dad that "keeps on giving," it was "Love and Help Children" and "Be Worthy of Trust" on the mammoth Dodger Stadium screens at the 2007 Father's Day game in Los Angeles. It's also now for alumni of the Atlanta Falcons, Pittsburgh Steelers, Oakland Raiders and Seattle Seahawks, and across political arenas for Venezuelan Ministries of Defense and Tourism, the Presidential Palace of the Dominican Republic, and business communities for Swedish heavy industry, Light Italian Desserts, Texas auto repair, California insurance and big chain hotels from coast-to-coast—1,100 organizations newly on board pushing total distribution to 70 million booklets.

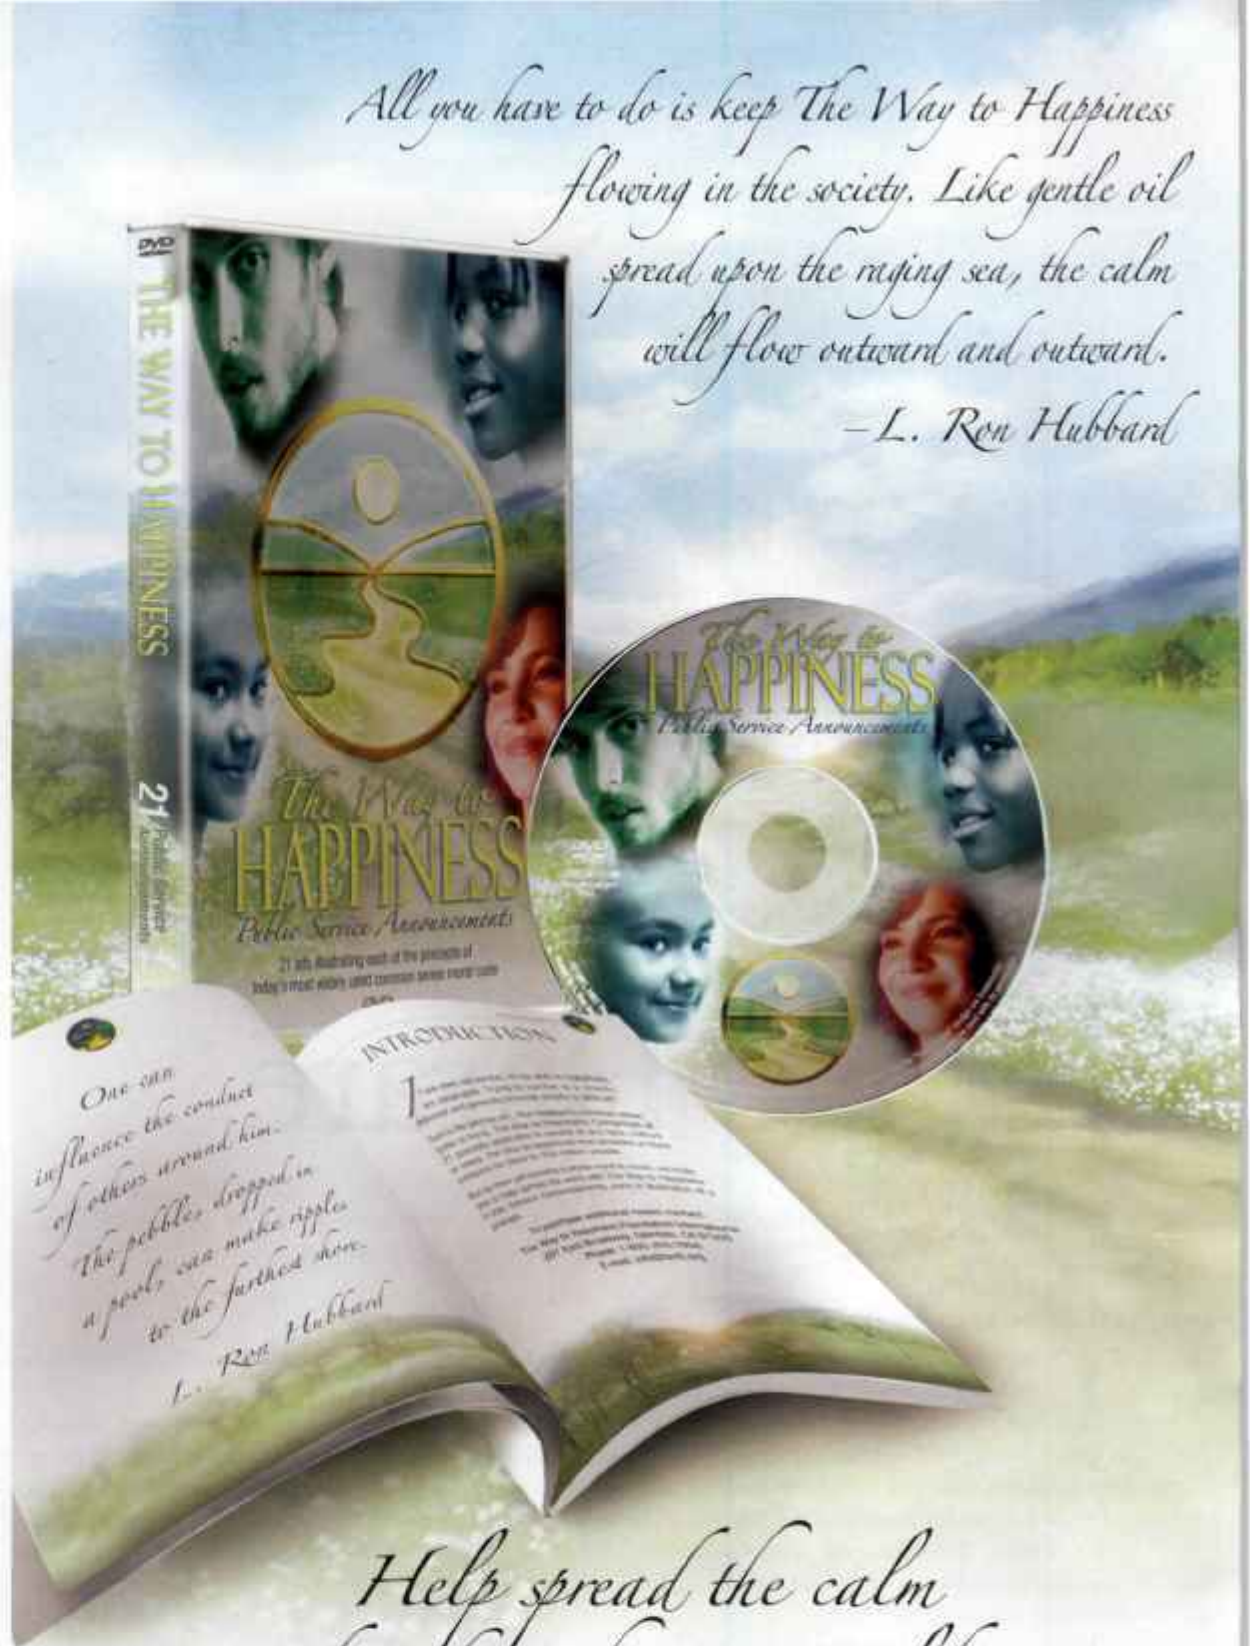

SECOND PHASE

But results so far are just a glimpse of what is now unleashing. With direct IAS-sponsored mailings going to 60,000 government leaders, civil service, industries and commerce in 29 nations, the grass-roots movement is about to go mainstream.

The strategy is twofold: First, direct to leaders of society to open the floodgates, until it is on every convenience store counter and hotel bedside table. Then, direct saturation to the multitudes, creating an overwhelming demand.

And if Phase One has begun with our direct mailings, then the Second Phase now takes on an entirely new dimension. While the first three of our Public Service Announcements were previewed last year, with the OT Summit 2007 came the completion of all 21-one for each precept of *The Way to Happiness*, and each carrying an unstoppable message from LRH straight to the heart of every individual who sees it. The result? Operation Planetary Calm will soon engulf the whole of Earth.

All you have to do is keep The Way to Happiness flowing in the society. Like gentle oil spread upon the raging sea, the calm will flow outward and outward.
—L. Ron Hubbard

Help spread the calm and make a happier world

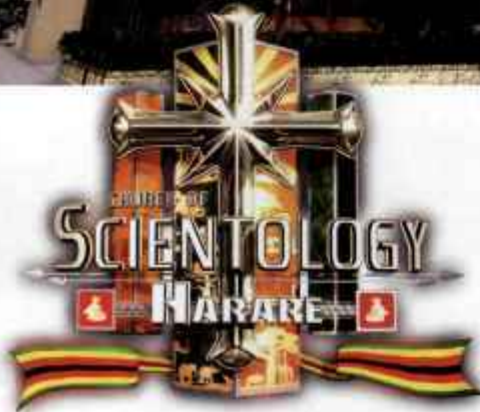

The *Way to Happiness* fills the moral vacuum in an increasingly materialistic society with a code of conduct comprising 21 basic precepts that guide one toward a better quality of life.

Since it was first published in 1981, its purpose has been to arrest the current moral decline in society and restore integrity and trust to Man. To date, more than 70 million copies have been distributed. *The Way to Happiness* needs to reach everyone, everywhere.

Join us in the campaign to make a better world.

Give The Way to Happiness Public Service Announcements to your friends and contacts and invite them to spread the word.

Harare

It lies just four blocks from the Meikle's Hotel, where LRH resided when first entering this city, then Salisbury, Rhodesia, more than 40 years ago.

IAS-SPONSORED IDEAL ORG

The building was originally home to a stock exchange dubbed "The Stability House." But with inflation rates in the triple-digit range, this is what will now give Zimbabwe stability.

The 45,000 square feet combines traditional African with contemporary cosmopolitan. There will be two floors of Public Division displays, and of course, the LRH section of those displays will provide the full back-story of his stay in this city.

While given what transpired when the Ian Smith regime rejected LRH's "one-man, one-vote" mandate, we will open especially big delivery channels for LRH

Administrative Tech as contained in the full WISE lineup for sane and prosperous production.

We will also be generating a very strong Volunteer Minister machine. Because when you have a 75 percent poverty base, when the phones don't work and the factories are down, you have to have emergency backup if and when needed. Thus an entire space will be devoted to recruiting, hatting and dispatching what amounts to a VM "Liberation Army" that will roll through misery like nobody's business.

But for all that is wrong with Zimbabwe, it yet would not be an Ideal Org without a perfect café. And in this

case, overlooking the whole district we are about to salvage.

The Harare Academy will seat 150 auditors-in-training at a time, and thereby seeding this zone with new groups and missions.

All of which, in turn, will indeed fulfill the LRH dream for this nation, and all as symbolized in an LRH office for a land where people are already saying, "He's come back."

It's all soon to be an African reality in Zimbabwe with the new IAS-sponsored Ideal Org of Harare.

Tel Aviv

It stands at 30 Jerusalem Boulevard, less than a free kick from the Israeli National Soccer Stadium, home to 15,000 fans from both sides of the religious-political fence.

IAS-SPONSORED IDEAL ORG

The three floors and 55,000 square feet reflect a German-Jewish architectural influx from the eve of the Second World War. That it dates from 1937 is even more significant, since it marks the first waves of immigrants landing in what was then British Palestine. Which is to say, this was among the original testaments to the hope there would one day be a Jewish Homeland. But once past the threshold, it will now say something else: This is not exclusively one religion or another, but the meeting point of all religions planetwide.

Accordingly, its Reception and Public Division spaces are expansive, capable of channeling better than a hundred visitors through the displays every hour, approximating the flow of traffic in and out of malls each day—except, of course, on the Jewish Sabbath.

Then there is the space exclusively reserved for *The Way to Happiness* distribution and group activation, for it was an IAS grant of booklets that originally cooled out this city and so put LRH Tech on the Tel Aviv map. And appropriately emblazoned with the dove of the now-famed TWTH "Peace Edition" will be the room from which *The Way to Happiness* will henceforth flow.

The auditorium is likewise all about unity, with traces of old-world Jewish roots in the deco mural and the expanse of a fabled Arabian palace. Needless to say, it will serve well for our own Sunday Services and inter-faith banquets.

The new Tel Aviv Ideal Org Academy, on the other hand, is all Scientology, and seriously so. Between Theory and Practical, it will seat a hundred Israeli auditors-in-the-making—better than a hundred more when you add the TRs and co-audit spaces. The HGC is likewise built for high-volume flow, with a double rank of auditing rooms off the lounge.

All in all, our new IAS-sponsored Ideal Org in Tel Aviv is a gateway to a whole new Promised Land.

Harlem

Rising six stories along 125th Street, in the place people all over the world envision when you say "Harlem," is our new Church of Scientology for Black America's Capital City.

IAS-SPONSORED IDEAL ORG

The building itself dates from 1910, or just about the time a first wave of black migrant workers settled in Manhattan's factory district. And if it could talk, it would probably tell you about the likes of Count Basie, Duke Ellington and eventually even Stevie Wonder, all of whom started here.

Its theme is "New Harlem Renaissance," with a hint of what else now makes up Black America's Capital City, including incoming Caribbean islanders and even a few African immigrants. But, of course, with language choices on every Public Division display, this place can now be anyone's renaissance.

The chapel does double duty: first, for Sunday Services, then for community enlightenment events. This one will also play host to ministers from the many neighboring

congregations who particularly want our literacy programs. For notwithstanding literacy rates running lower than national norms, Harlem was once home to some very serious authors, and now they have another with the LRH bookstore.

The 6th floor Purif is also especially crucial to the Harlem equation and the Hubbard Guidance Center is configured to keep 34 auditors in the chair between Day and Foundation.

The Academy is similarly designed for volume traffic in style. In particular, it will regularly accommodate better than 200 auditors-in-training for African-American communities across greater Manhattan.

"If Scientology were to be used by the black people of America, the gains for which they have striven so hard would be guaranteed." Such was an LRH message to black America.

And in testament to the fact we will make good on that one, too, is his Harlem office.

Yet that's not all we are doing on 125th Street. Because just a couple of doors down, we will be face lifting, uplifting and otherwise remaking another 16,000-plus square feet for the new Harlem Community Center.

All spaces will serve community revival programs: film rooms for Book One rollouts, a tutoring center for grade school catch-up and seminar rooms to knit civic groups around our Way to Happiness, Anti-Drug and Human Rights campaigns.

The point: While black America has arguably given white America the best cultural export in the last 20 years, now they have a chance to export something for themselves-our New Ideal Org in the African-American capital of Harlem.

Inglewood

It was here, fifteen years ago, that black rage over white police brutality ignited the Los Angeles riots. It is a neighborhood that has been through hell—but now, it is home to our future Inglewood Ideal Org.

IAS-SPONSORED IDEAL ORG

Reception and Public Division spaces harken back to when black America introduced white Hollywood to the likes of Lena Home and "Stormy Weather." While, more or less in return, our displays and plasma screens will now introduce Inglewood to the whole LRH Social Betterment lineup for calm roads ahead, including The Way to Happiness, Criminon, Narconon and Applied Scholastics.

Inglewood's Dianetics seminar space is coupled with adjacent rooms that will be able to fast-flow 274 people onto Bridge services at a time. Just down a staircase will lie the LRH bookstore. But the heart and soul of any Class V Org is her Academy, and this one is big—designed to seed LA African-American and Hispanic communities with 210 new auditors every few months.

The HGC is distinctly upscale, echoed in design by the nearby Magic Johnson Center. But, spiritually speaking, it is here where African-American and Hispanic communities really get back to their roots.

"Look into Scientology and use it to help your own people to take their place amongst the most brilliant people on Earth."

Such was an LRH message to black America, and the Inglewood LRH Office will embody those words.

The rest of what we're now bringing to Inglewood lies just up Manchester Boulevard at the old Vermont Village Plaza—Inglewood's new Dianetics and Scientology Community Center. The historic deco monument will likewise stand as a gateway to our Social Betterment programs. But it is also, and expressly, designed to

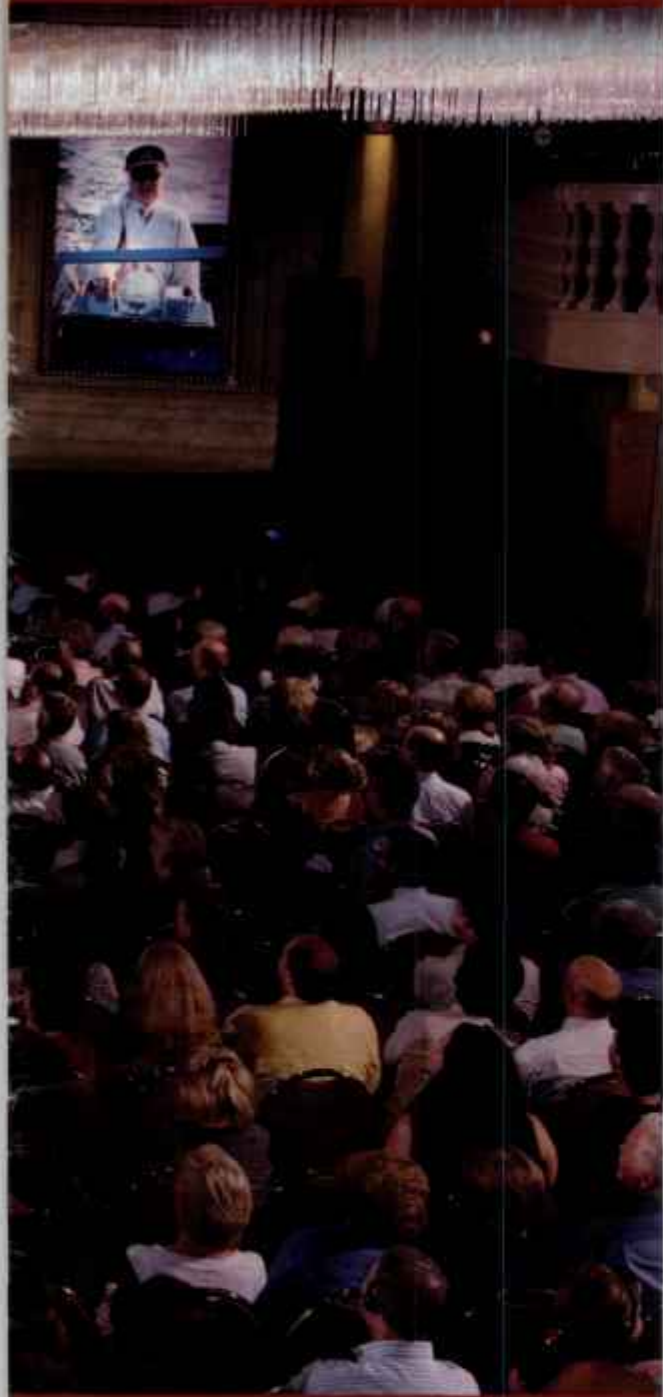

benefit this neighborhood where it has been hurt the most: African-American public schools were notoriously short-changed through the last four or five decades, and this is where we make up the difference, with a new Inglewood Children's Learning Center.

We will also be beefing up the likes of our "Say No to Drugs, Say Yes to Life" campaign rollout from its event center, which doubles as a banquet hall for community activation events. Because that is what makes for real upward mobility, and that is what the International Association of Scientologists is making possible in Inglewood today.

Our new Ideal Org in Inglewood, California!

OT *Seminar*

At the conclusion of the Ultra OT Summit, Chairman of the Board RTC, briefed OT Ambassadors before they launched their targets for the coming year.

As the historical OT Summit 2007 drew to a close, OT Ambassadors from across the planet assembled in the Flag Auditorium for one final briefing—the traditional OT Ambassador Seminar.

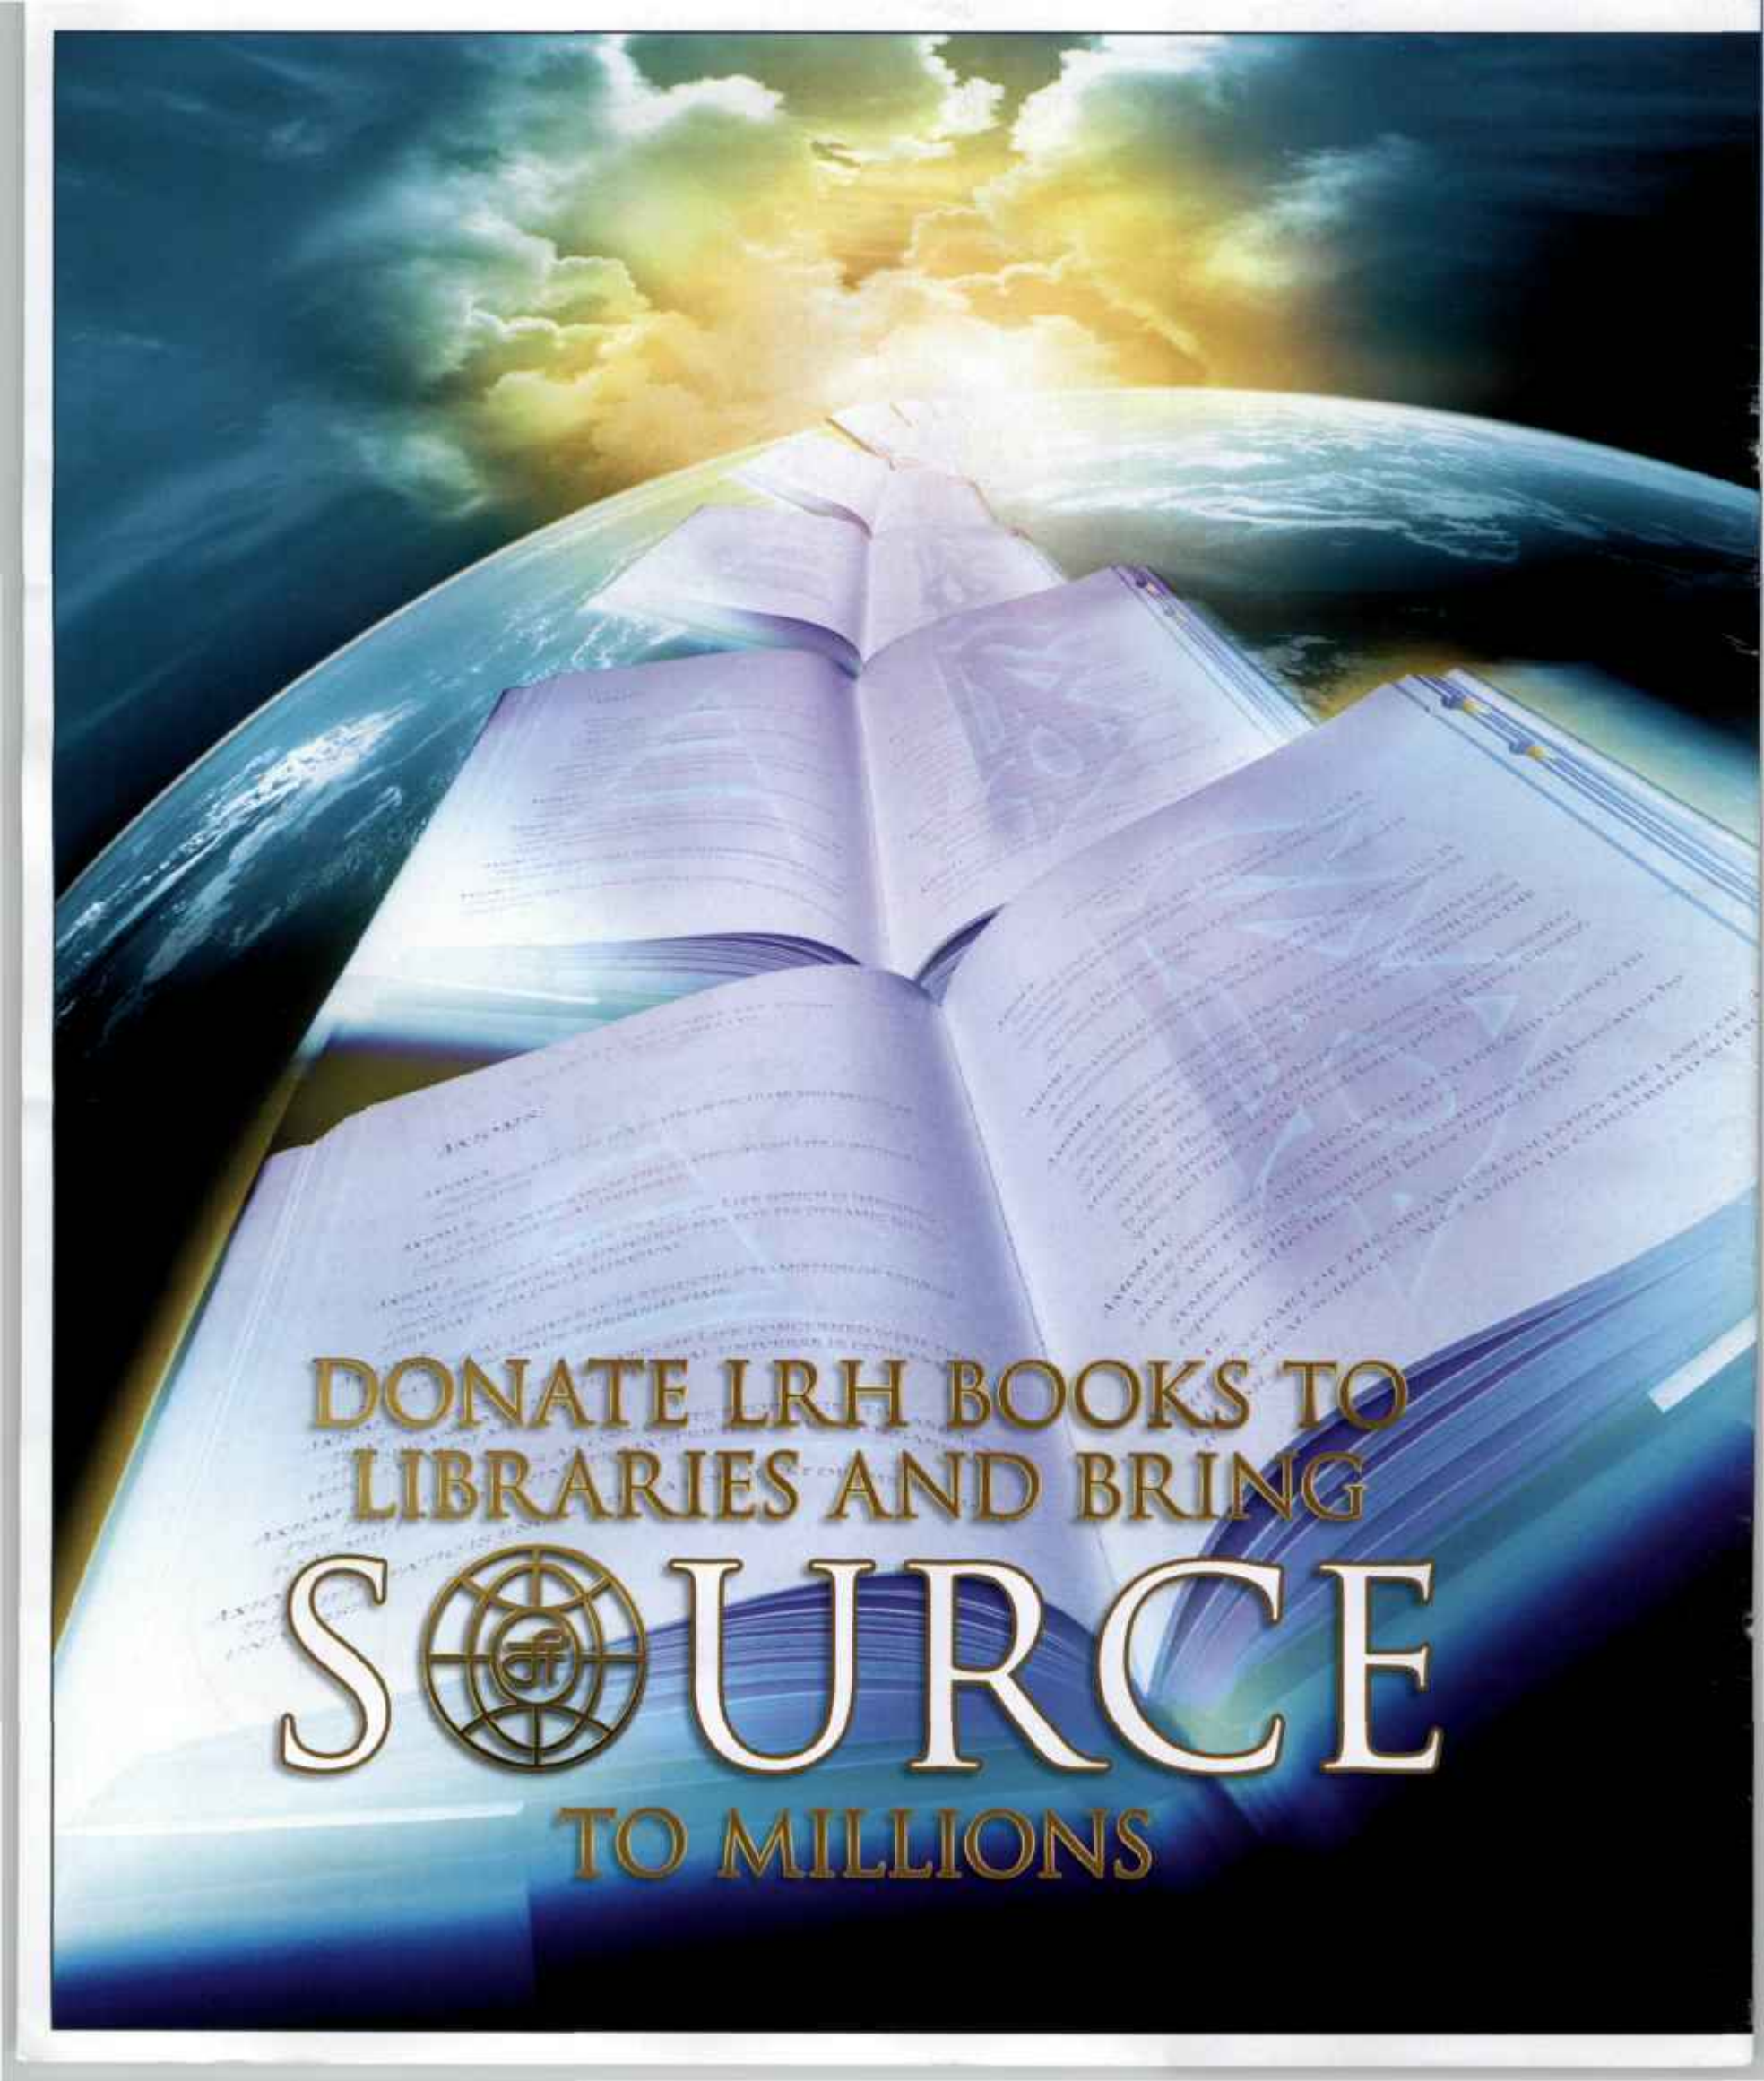

It was here that Chairman of the Board RTC gave them a behind-the-scenes look at the future for the Golden Age of Knowledge and Ideal Orgs, all as related to the Ambassadors purpose and role: "Bringing LRH's tech to the peoples of Earth and doing everything possible to get others up to full OT."

The briefing included a surprise presentation of the completed space plans and designs for 39 new Ideal Orgs handed out to the OT Ambassadors of those areas.

Before launching the year of achievement ahead, all present rededicated themselves to the Code of an OT Ambassador.

As a salute to the historic occasion of the largest number of OTs ever assembled, the OT Ambassadors at the OT Summit Seminar joined the Chairman of the Board, Mr. David Miscavige, for a group photograph.

BRING THE TECH TO MILLIONS BY GETTING THE NEW LRH BOOKS INTO LIBRARIES

Did you know that an LRH book is checked out of a library every 15 seconds? Books are the front line of dissemination. Making sure that the new, definitive editions of the Basic books are on the shelves to meet this continuous demand from library users is not optional. It is pivotal to expanding Dianetics and Scientology and clearing the planet.

Surveys show that the public's use and support of their local libraries is increasing. Nearly two-thirds of Americans own library cards. Americans visit libraries more than twice as often as they go to the movies. In England, ten million people visit a library at least once every two weeks. And the picture is the same internationally.

The target is to provide every single one of the 390,000 libraries in the world with the new editions of the Basic books. By contributing to the Library Donation Campaign, you are helping to place new LRH books into the hands of the millions of people who need them.

Donate to the Library Donation Campaign today.

Donate today for your local library or take responsibility for getting LRH books into libraries in entire geographic zones or pioneer lands.

Decide what libraries or geographic zones you will take responsibility for, fill out the Library Donation portion of the order form (see insert) and send it in with your contribution.

Or contact the Bookstore Officer at your local org or the Planetary Dissemination Unit (PDU) nearest you. They can tell you how you can spread the message and actions of the Library Donation Campaign far and wide.

When you donate one or more sets of LRH Dianetics and Scientology books to libraries, you will receive:

a) A special commendation
b) Regular issues of the Planetary Dissemination Newsletter containing:

- Briefings on current dissemination projects to make LRH tech available around the world
- Results of the campaign
- Successes and stories from public who discovered Scientology from an LRH book checked out from the library

• Your name published as a donor

c) Donor Book Plates: Attractive donor book plates with your name and contact information can be shipped with your set of donated books to the library of your choice

Item C6063 English

"MY ANALYTICAL DATA on the subject of the human mind realigned and I can now compute more logically. The mind, the Tone Scale, Theta-MEST and auditing—the Basics are in!"

"I REALLY DO HAVE a conceptual understanding. It's crystal clear to me now and so much so, that it has literally brought me to my feet taking the survival actions across my dynamics."

"I CANNOT COMPARE it to any OT level I have done so far and I tell you, the gains on every OT level I've done were immense! I have been exterior all the time and I feel like I have gained the best advance I have had so far in almost 30 years of Scientology. These basic concepts I have learned cover the basics of life, as they are Life and give me Life."

"SUCH SIMPLICITY AND such clarity and all of a sudden the whole of existence makes sense. I got so keyed-out with what LRH was telling me. I could feel it was the total truth—which went all the way to the basic, fundamental simplicities of life in this universe."

"THESE BOOKS ARE incredible, the lectures are incredible, the glossaries are incredible! These materials are not just totally on-Source, they are Source and the ease with which I am getting the data is amazing. This study changed my entire viewpoint on life, across all dynamics. This is the woof and warp of life and it's part of me now, forever."

"ALL THANKS TO the Chairman of the Board RTC for the tremendous work in getting us the pure tech of LRH. There is no question that we have it now. Thank you LRH for your original gift. I understand it at last."

THE ESSENCE OF KEEPING SCIENTOLOGY WORKING

What lies in back of those results, and thousands more like them, is the story of the century, and one that must be seen and known by every Scientologist—for it is the essence of KSW and has everything to do with you, your future, and the eternity of every being on Earth.

"Keeping Scientology Working is all but impossible without tonight's release," Mr. Miscavige said. "And conversely, with tonight's release, it's all but guaranteed."

"No matter what the future holds—and it holds a lot—in all the years to come, we'll look back on this date as to what made that future possible."

See the epic event, Chairman of the Board RTC's release of the Basics, in your org.

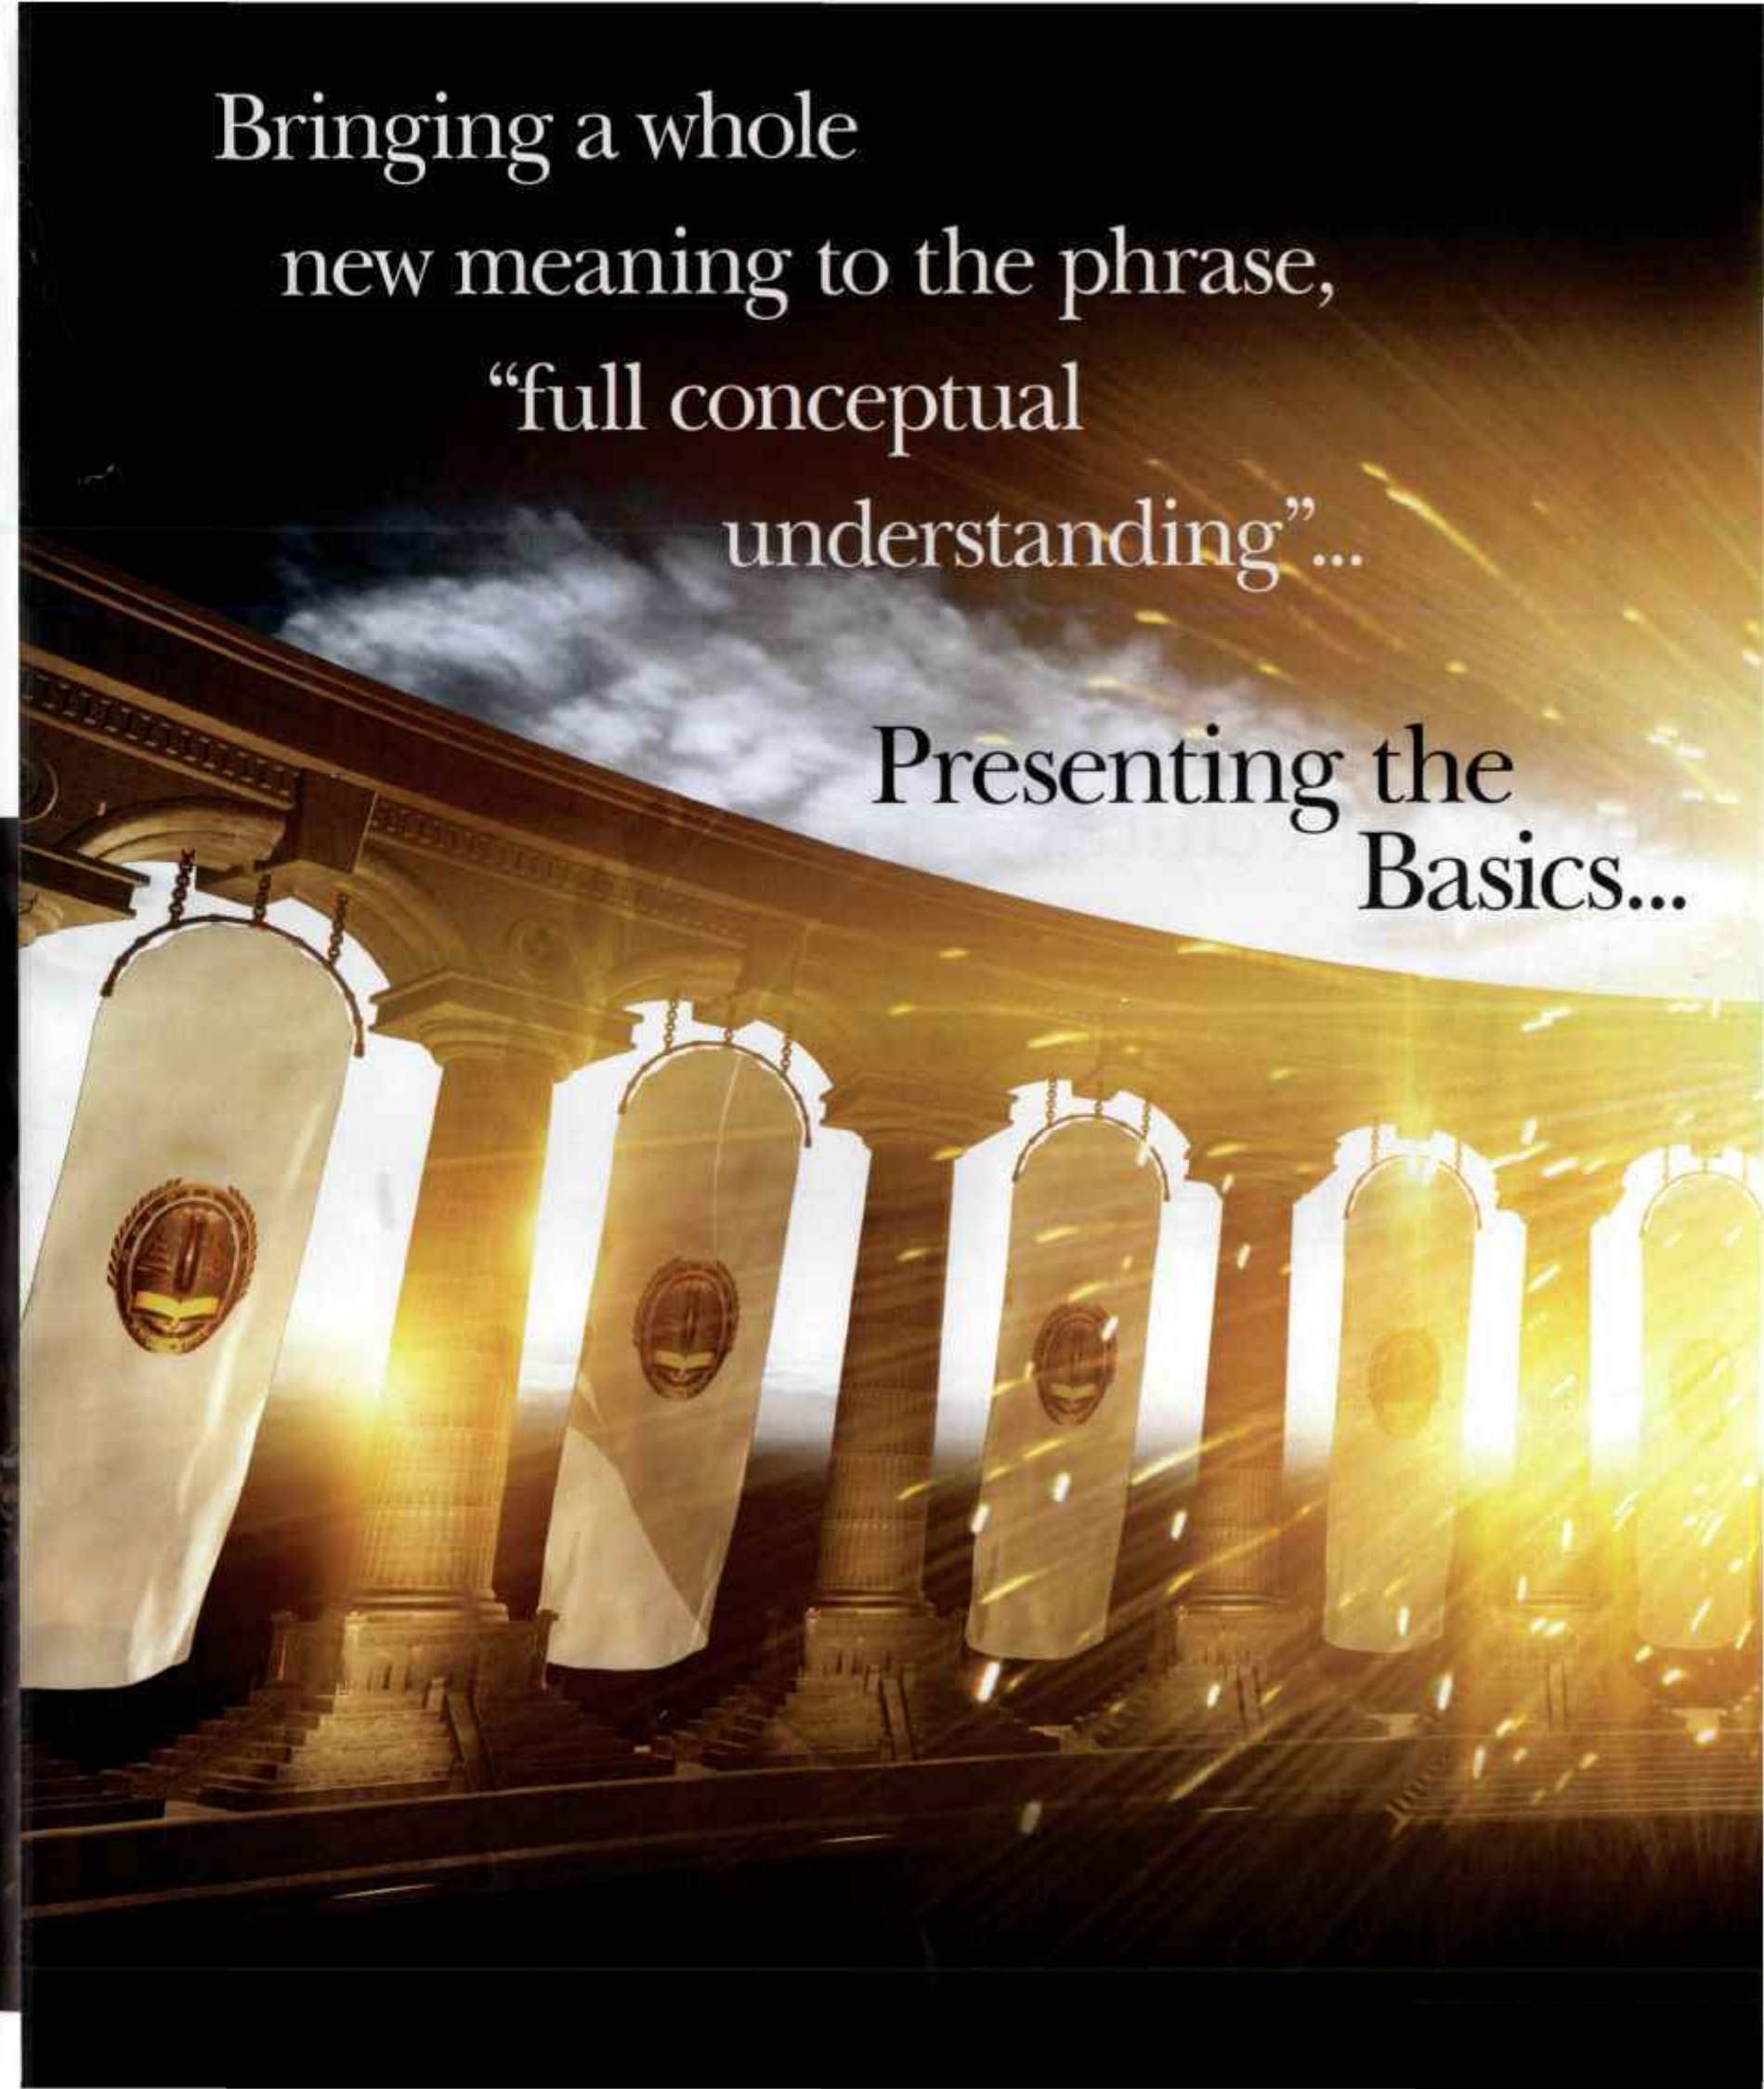

"No matter what the future holds—and it holds a lot—in all the years to come, we'll look back on this date as to what made that future possible."

*Mr. David Miscavige
Chairman of the Board RTC*

The Basics

L. Ron Hubbard's
Books & Lectures

Pure Source

"So there you have the Basics—Dianetics and Scientology—and the very foundation of the subjects complete. And just in case you missed it, we are not speaking of 'corrected manuscripts,' not 'newly verified' manuscripts, and certainly not simply 'repackaged.' What we are speaking of is 100 percent unadulterated SOURCE."
